Meetings Held

The Senate Library Committee met 3 times during 2008/09:

June 23, 2008
November 3, 2008
March 2, 2009.

Collections Budget

The 2008/09 Library Materials Budget was presented. The Library sustained a modest cut to the collection budget but this was alleviated by a deliberate \$250,000 surplus carry over from the 2007/2008 budget. As such the Library was able to avoid cancelling serials or other unduplicated content for the coming year. However if the allocation for Library collections is not increased over the next few years the Library will be required to cancel journals and reduce monograph orders.

In allocating the budget, several principles were applied including:

- Serial allocations were set based on increases of 7% over the previous year's expenditures in Science, Health and Applied Science, and 5% over the previous year's expenditures in all other areas.
- Continued migration of journals received in both print and online formats to online-only for 2009 should result in a savings of over \$80,000.

Implication of 2008/2009 and 2009/2010 Cuts On Library Services and Collections

The Library took a 5% cut on its budget for the 2009/2010 year. The Library budget is split up between Operating (55%) and Collections (45%) and has a list of budget principles it adheres to when making decisions on budget cuts.

With the lack of a needed 4% to 6% increase to maintain status quo for collections combined with a weakened Canadian dollar and the added 5% cut to the existing budget, the buying power of collections will be reduced by

\$1,619,776. To assist in the planning and implementation of allocating the collection budget shortfall an Allocation Advisory Committee as a subcommittee of the Senate Library committee was established. This committee consists of faculty representatives from each Faculty (including new faculties), a grad representative, an undergrad representative, 2 liaison librarians, Lynn Copeland and Natalie Gick. Their work will take place over the summer of 2009 before the normal journal renewal period which takes place in September.

On the operating side of the budget, line adjustments and cutbacks, elimination of vacant and filled positions assisted in meeting the reduced budget total.

3 Year Plan

As part of the Library's 3 Year Plan, work continues on issues such as enhancing scholarly communication, continuing collection development, supporting research and physical space.

Campus Campaign

Library staff and Alumni raised over \$10,000 for a casual seating area on the 6th floor. This translates to \$30,000+ with matching funds from Library and Alumni.
