

SIMON FRASER UNIVERSITY**MEMORANDUM****To: Senate****From: Stephen T. Easton, Chair** *Belincheffe for Stephen Easton*
Senate Policy Committee on Scholarships, Awards and Bursaries**Re: Annual Report (SPCSAB Reference 05-14)****Date: 17 November 2005**

I am pleased to submit the Annual Report of the Senate Policy Committee on Scholarships, Awards and Bursaries (SPCSAB) for the fiscal year 2004-2005.

Last year's Annual Report (2003-2004) was delivered in the spring of 2005. The introduction of the new Student Information Management System (SIMS) for the University meant that it took longer to develop relevant information last year. That transition has now been effected. Beginning with 2004-2005 we expect to return to the normal fall delivery of the SPCSAB Annual Reports.

Overview

SPCSAB is the committee charged by Senate with setting policy for the administration of awards, student scholarships, bursaries and other forms of financial aid at SFU. It should be noted that this is primarily for internal awards. Three other Senate committees, namely SUAAC (Senate Undergraduate Awards Adjudication Committee), SGAAC (Senate Graduate Awards Adjudication Committee) and SCUH (Senate Committee on University Honors) adjudicate financial awards to students where adjudication is needed. Academic Resources, a division of Student Services, processes bursary applications.

During 2004-05 financial assistance at the University increased significantly. Applications for undergraduate student bursaries increased by 9 percent while the University funded bursary budget increased by 91 percent to \$4.84 million. Graduate bursaries brought the total bursary budget to \$5.3 million, an increase of 46 percent over 2003-04 and 150 percent over 2002-03. A special Access Committee, established by the Board of Governors in Spring 2004, reviewed issues relating to the increasing tuition fees and the effect this was having on students' ability to attend university. The Access committee provided advice to SPCSAB on how the adjustment to the Scholarships, Awards and Bursaries component of the University's budget should be allocated. In particular it was noted that the portion of assessed need that could be accommodated by the bursaries budget had been declining. Thus the additional allocation to the SAB budget allowed the University to provide funding at 85% of assessed need. The SPCSAB agreed to this adjustment to the bursaries base in 2004-2005 based on the dramatic increase to

tuition fees but reserved judgment on the disposition of future SAB budget increases. The Committee expressed a desire to continue to recognize good student scholarship as well as dealing with issues related to student need.

The BC Government Student Assistance Program together with the Canada Millennium Scholarship Foundation changed some of the ways in which their funding was awarded. The sum of student loans and grants increased by less than one-half of one percent to \$42.6 million while the number of student awards fell by eight percent to 15,600.

Undergraduate entrance scholarship funding fell slightly to \$2.55 million in 2004-05 as total awards decreased from 684 to 554 primarily due to the decrease in Summit Entrance Scholarships. Some 1,266 Open Undergraduate Scholarships were awarded totaling \$1.4 million. This represents a constant funding level relative to the previous year. The award cutoff for a cumulative GPA remained at 3.70, and the payment per credit hour remained at \$100.

Graduate funding during the period was increased from \$3.8 million to \$4.7 million of which 78 percent was awarded through Graduate Fellowships, 12 percent for President's Ph.D. Research stipends, 6.7 percent for the C.D. Nelson Entrance Scholarships, and the remainder for Special Graduate Entrance Scholarships.

However, the 2004-05 fiscal year ended with the Graduate Fellowship account being overspent by \$572,000. There were three reasons for this: there was an unexpected increase in the demand for President Research Stipends that had to be met; the actual share of the tuition increase expected to flow to graduate funding was not as great as forecast; and the long conversion to the Peoplesoft computer system meant that important financial reports and late-posted Spring award disbursements led to very inaccurate year end budget forecast. The latter problem in particular is not expected to recur and the Dean of Graduate Studies plans to make proposals to deal with unanticipated increases in President Research Stipend demands.

In addition, the method of awarding of Graduate Fellowships has been changed. Presently, all Graduate Fellowships are awarded on the basis of the headcount in each graduate program. Starting in the fall of 2006, half of all Graduate Fellowships will be awarded according to headcount, and half will be awarded on the basis of a weighting of graduate degrees awarded in the preceding three years. The purpose of these changes is to emphasize degree completions rather than numbers in programs, and to underline support for research-intensive programs.

Simon Fraser University continued to fund the Work-Study Program with 541 awards costing \$608,000. This is the second year in which the University has funded these awards since the Province discontinued them.

Other notes of interest:

- The Canadian Millennium Foundation awarded 12 students the National In-Course Millennium Scholarships in 2004-05.
- Students who participated in the SFU International Field School programs, Foreign Exchange programs and International Co-op received 137 bursaries totaling \$221,000

- The Aboriginal Bursary Program targeted at aboriginal students in financial need made 35 awards totaling over \$57,000.
- Total disbursements of Athletic awards increased by 15 percent to \$480,000 primarily arising from an increase in endowed and annual donations. Four new donor funded athletic awards were established in 2004-05. Recreational Leadership awards totaled nearly \$80,000, an increase of 75 percent primarily due to the establishment of the new Recreation Promotion Awards.

SIMON FRASER UNIVERSITY

DEAN OF GRADUATE STUDIES

Memorandum

TO: Chair
Senate Policy Committee on
Scholarships, Awards & Bursaries

FROM: Jonathan C. Driver
Dean

SUBJECT: Annual Report: SPCSAB

DATE: October 21, 2005

I am pleased to enclose a summary of the graduate award disbursements in fiscal year 2004-05 in tabular form, for inclusion in the SPCSAB report to Senate.

Disbursement Totals by Award:

Graduate Fellowship	\$3,666,000
President's Ph.D. Research Stipend	\$ 546,000
C.D. Nelson Entrance	\$ 306,334
Special Graduate Entrance Scholarship	\$ 187,000
	<hr/>
	\$4,705,334

c: J. Hinchliffe

GRADUATE AWARDS IN FY 2004-05

BASE BUDGET 2004-05	\$3,940,097
SURPLUS CARRYOVER - FY 2003-04	<u>193,071</u>
TOTAL AVAILABLE FOR AWARDS	4,133,168

	<u>AWARD NAME</u>	<u>NUMBER</u>	<u>VALUE</u>		<u>TOTAL</u>
Summer '04 Semester	GF Master's	148	6,000	\$	888,000
	GF Ph.D.	69	6,000		414,000
	Stipend	25	6,000		150,000
	Nelson	18	6,000		108,000
	Entrance	0	varies		
				\$	1,560,000
Fall '04 Semester	GF Master's	169	6,000		1,014,000
	GF Ph.D.	91	6,000		546,000
	Stipend	26	6,000		156,000
	Nelson	16	6,000		96,000
	Entrance	32	varies		<u>144,000</u>
					1,956,000

	GF Ph.D.	56	6,000		336,000
	Stipend	40	6,000		240,000
	Nelson *	17	6,000		102,334
	Entrance	8	varies		<u>43,000</u>
					<u>1,189,334</u>
TOTAL AWARD EXPENDITURES					<u>4,705,334</u>
SURPLUS CARRYOVER FOR FY 2005-06					<u>\$ (572,166)</u>

* This is the 'actual' amount reflected in the budget summary reported by Finance. However, DGS disbursement records indicate the total should be \$102,000. The \$334 discrepancy appears to be a data entry error in Finance.

SPCSAB Report on Entrance Scholarships

Report to the Senate Policy Committee on Scholarships, Awards and Bursaries 2004 – 05 (1047 – 1051) Entrance Scholarship Program

This report provides entrance scholarship data specific to intake and retention. Entrance scholarships are available to new applicants to Simon Fraser who, at the time of admission to the University, demonstrate academic excellence or a combination of extraordinary personal achievement and academic excellence.

Intake for the 1047 scholarship cycle:

The September entry is the largest intake of entrance scholarship students with the great majority entering SFU directly from high schools in BC. Entrance scholarship to students from other provinces in Canada include the Gordon M. Shrum National Entrance scholarship and the Kenneth Strand National Entrance Scholarship. Entrance scholarships for international students are the Shrum International Entrance Scholarship and the International Summit Entrance Scholarship. Chart one is a comparison of scholarships offered for 1047, vs the final count of new entrance scholarships disbursed.

SPCSAB Report on Entrance Scholarships

Chart two provides entrance scholarship registration numbers over the past four fall intakes. New awards include: the Lloyd-Carr-Harris Entrance scholarship, awarded to a directly admitted student to the Faculty of Business with the highest entering grade, and the H.Y. Louie Entrance Award and the Lohn Foundation Entrance Award. Both of these entrance awards are need-based awards jointly administered by Student Recruitment and Financial Assistance.

Summit Entrance scholarship: Previous to 1037, the Summit Entrance Scholarship was offered to students with an entering average of $\geq 93\%$. From 1037 onwards, the Summit has been offered to all applicants presenting a $\geq 90\%$ average at the time of admission. Possible contributing factors for the drop in Summit registrants for 1047 include: more BC12 students leaving the province to accept offers of scholarship outside BC (the high number in 1037 may be attributed in part to more BC students staying in the province with the double cohort in Ontario making admission to Ontario Universities very competitive.) and an environment of increased competition for well qualified students provincially, nationally and internationally. In 1037, offers of scholarship were not rescinded when students fell below $\geq 90\%$ on final grades. In 1047, 24 students who fell below $\geq 86\%$ on final grades had their offer of scholarship withdrawn. For additional detail, please see appendix A, comparing acceptance yields broken out by academic group, program, and award name.

SPCSAB Report on Entrance Scholarships

Success rates (scholarship retention): The over all success rate – based on the number of scholarship holders who achieve ≥ 3.0 on their first semester and “retain” their scholarship – was up slightly for the 1047 entry cohort. This number is significantly influenced by the Summit retention rate: 66% vs. 61% for the previous year.

Chart three: Success rates (≥ 3.0) on 2nd disbursement (1047 entry, and 1051 disbursement) vs 1037 - 1041

Count of Status	Status	disbursed	scholarship retention		scholarship retention

Re: Open Undergraduate Scholarship 2004/05
Fiscal Summary

Date: October 31, 2005

The Open Undergraduate Scholarship program for the 2004/05 fiscal year continued be to awarded at the CumGPA level of 3.700 (same CGPA minimum since 1996). In Fall 2004, the basic tuition fee increased by 15% from \$123.70 per credit hour to \$142.30 in addition to a 15% increase to premium fee credit hour fees.

The actual number of students receiving the Open Scholarship decreased, but overall the average dollar value given to students increased. For 2004/05, there were a total of 1,266 Open Scholarship recipients, resulting in a 9.9% decrease in the number of Open Scholarship recipients over the previous fiscal year, but there was an increase of 11.6% in the average dollar value of the Open Undergraduate Scholarship disbursed over the previous fiscal.

The annual budget for the Open Undergraduate Scholarship program for the 2004/05 fiscal year remained the same as 2003/04. Total disbursements over the three terms for 2004/05 amounted to \$1,399,100.

Attached is a spreadsheet with an updated summary of the Open Undergraduate Scholarship data.

If you have any questions regarding the Open Undergraduate Scholarship, please do not hesitate to contact me.

**Report to the
Senate Policy Committee on Scholarships, Awards and Bursaries
Bursary Program 2004-2005**

Bursaries are awarded on the basis of financial need and satisfactory academic performance to full-time undergraduate and graduate students*. Bursaries are funded through endowments and annual gifts from donors as well as through university operating funds. Bursaries are adjudicated by Financial Assistance on behalf of the Senate Undergraduate Awards Adjudication Committee. Information about the bursary programs is published in the University Calendar and listed in a searchable, web accessed database.

In the 2004-05 reporting year (May 2004 – April 2005), Financial Assistance received 5,817 applications with a total calculated financial need of \$7,038,336. This represents an increase in student financial need of \$569,596 or 9% over the previous year. The University funded bursary budget increased from \$2,567,835 to \$4,902,725, an increase of \$2,334,890 or 91%. Individual student bursaries were awarded at 85% of assessed need in 2004-05.

The tables below compare changes in the Bursary program over time. The SFU Open Bursaries and the SFU Daycare Bursaries are funded by University operating funds and are disbursed from one umbrella allocation. The Annual and Endowed Bursaries are funded through annual or long-term gifts from donor individuals or organizations. In 2004-05 year, 10 new donor funded bursaries were established, 8 annual donation and 2 endowment.

Included in the SFU Open Undergraduate (domestic) data reported below is funding to a World University Services of Canada (WUSC) refugee student for three semesters. Simon Fraser University has an agreement with the Simon Fraser Student Society to assist in the support of two students a year identified and immigrated to Canada by WUSC. The University pays for tuition up to 12 credit hours each semester, the athletic and recreation fee, the student services fee, residence fees (dorms only), and a \$500 start-up bursary.

SFU Open Bursaries for International undergraduate students includes funding for two groups of students, those entering the university prior to September 2003 and those entering on or after September 2003. Bursaries for International students entering on or after September 2003 are funded through their own tuition revenue. In 2004-05 the budget for these students was \$446,750 and 305 bursaries totaling \$440,695 were awarded.

The SFU Open Graduate Bursary figures reported below includes the TSSU Child Care Bursary. This is the fifth year of this bursary program that is included in the TSSU labour contract with the University. This year 15 bursaries totaling \$38,790 were disbursed. 14 bursaries were awarded to domestic students (\$36,000) and one was awarded to an international student (\$2,790)

Beginning in the 2004-05 academic year, cost recovery graduate programs were required to fund bursaries for their students from their tuition revenue. These programs are reported separately. In 2004-05, program funded bursaries totaling \$48,795 were disbursed to students in these programs, 10 bursaries totaling \$9,600 to international students and 44 totaling \$39,195 to domestic students. In 2004-05m students in theses programs have also received bursaries funded by donors. These bursaries were reported under Annual and Endowed Bursaries.

In 2003-04, the University established several bursary programs to assist in the promotion of the University's goal to encourage internationalization. Students who participate in SFU International Field School programs, SFU Foreign Exchange programs and International Co-op placements may be considered for these bursaries. This year 137 bursaries, totaling \$221,030 were awarded. 8 of theses bursaries were awarded to international students (\$12,235).

The University has also established the Aboriginal Bursary Program to assist aboriginal students in high financial need. In 2004-05, 35 bursaries totaling \$57,230 were awarded to aboriginal students.

*Undergraduate students are considered full-time if they are registered in 9 or more semester hours of normally graded courses. Graduate students must be registered in an approved full-time program.

Note:

1) In 2004/2005, GAWM and MOT students have received bursaries funded by donors. These bursaries were reported under annual & endowed bursaries

2) The MBA (Day) program tuition had increased significantly in 2002/2003 and 2003/ 2004, the impact resulted in higher demand of bursary funding during the period.

3)EMBA-Executive MBA, GAWM-Global Asset and Wealth Management MBA, MOT-Management of Technology MBA, GDBA-Graduate Diploma in Business Administration, MPP-Master of Public Policy

**Report to the
 Senate Policy Committee on Scholarships, Awards, and Bursaries
 Athletic and Recreation Awards 2004-2005**

Athletic Awards

Athletic awards are available to students who are members of varsity teams at Simon Fraser University and are awarded primarily on the basis of Athletic merit, though some awards have an academic achievement component. There are three categories of Athletic Awards: those funded through endowed and annual donor donations, those funded by University operating funds, and those funded by money raised by the individual teams to support their own athletes (Athletic Tuition Awards).

The total disbursement in all three categories of Athletic Awards has increased from \$416,560 in 2003-2004 to \$480,061 in 2004-2005.

Four new donor funded athletic awards, 1 annual donation and 3 endowment, were established in 2004-2005.

Recreation Awards

Simon Fraser University supports a number of awards for students who actively support the University's Recreation Program. The Recreational Leadership awards are given in recognition of individual participation, leadership and volunteerism in various aspects of Recreation Services. Thirty three awards totaling \$19,800 were awarded in 2003-2004. In January 2004, a new award, the Recreation Promotion Award, was created to further support and promote the University's recreation programs. 45 awards totaling \$61,238 were given in 2004-2005.

B.C. Athletic Assistance Program

The B.C. Athletic Assistance Program (BCAAP) is a provincial government program to support top athletes in pursuing their education while maintaining their sport training. The funding level for Simon Fraser University remained the same from 2001/02 to 2002/03. However, due to Canadian Interuniversity Sport rules, some of the allocated funds could not be disbursed in 2002/03 so a portion of the funding was disbursed in the summer semester 2003 and is counted in the 2003-2004 year

British Columbia Government Student Assistance 2004-2005

Domestic Canadian students, graduate and undergraduate, may apply through their home province to receive funding assistance from the federal, provincial and territorial governments. Government assistance is a primary source of funding for approximately 30% of Canadian post-secondary students. The goal of these programs is to promote accessibility of post-secondary education among academically qualified students who do not have the personal or family resources to meet the costs of education.

At Simon Fraser University approximately 24% of all undergraduate students received their primary funding through government student assistance.

British Columbia Student Assistance Program (BCSAP)

The tables below report the number of government assistance awards and the total dollars of assistance received by Simon Fraser students from 1994/95 to the 2004/05 award year. The first two tables report numbers for students who are considered residents of British Columbia and are receiving funding through the BC government. Although the numbers reflect that Simon Fraser students received \$68,201 less in government student assistance through BC in 2004/05 compared to 2003/04, this decrease can be attributed to improvements made to the report specifications in the student information system. According to the government's statistics Simon Fraser remained the second largest user of the assistance programs for the fourth year in a row. In 2004/05 BCSAP increased the living allowances for all students and increased the living allowances for parents. The expected contribution from students has decreased.

In 2004/05 the BC Grant and Canada Millennium Scholarship Foundation Bursary was eliminated from the BCSAP program. This change affected undergraduate students and is reflected in the BC/Federal Grant column in the table below. Students who would have previously been eligible for these grants received BC loans instead. However, to offset the increase in loan values, the BC Government, in partnership with the Canada Millennium Scholarship Foundation, introduced the BC Loan Reduction Program. Under the program eligible students who successfully complete each year's studies will have their BC Student Loan reduced. The amount of reduction will vary according to the BC Loan awarded. The grant programs that remained in effect were the Canada Study Grant for Students with Dependents, Canada Study Grant for High-Need Students with Permanent Disabilities, and Canada Study Grant for Female Doctoral Students.

Work-Study Program 2004-2005

The Work-Study program was part of the provincial government's BC Student Assistance Program (BCSAP) until August 2002 when the provincial program was cancelled. Provincial Work-Study was targeted to graduate and undergraduate students who were B.C. residents and had an assessed financial need above the maximum funding allowance through BCSAP. Commencing Fall semester 2002 the program is funded by the University.

For the Fall semester 2002, Simon Fraser University implemented a University funded Work-Study program with a budget of \$360,000. In 2003-2004, the budget was increased to \$610,000. Like the SFU bursary program, the Work-Study program is intended to be supplemental funding for Simon Fraser students with demonstrated financial need. The program is not restricted to BC residents nor to those receiving BCSAP. This means that participants are no longer identified by system reporting alone so an application and adjudication process has been implemented. The application deadline is six weeks prior to the start of each semester and integrated with bursary adjudication process.

WORK-STUDY- Undergraduate

	Number of Awards	Total \$ Awarded	Total \$ Spent
04/05	541	734,400	607,721
03/04	573	760,200	633,425

**Report to the
Senate Policy Committee on Scholarships, Awards and Bursaries
External Scholarships, Awards and Bursaries 2004-2005**

Each year Simon Fraser University students receive scholarships, awards and bursaries that are administered and adjudicated by organizations and corporations external to the University. Scholarships, awards and bursaries in this category include: Canadian Merit Scholarship Foundation Awards, Canadian Millennium Scholarship Foundation Merit Awards, Terry Fox Humanitarian Awards, Canada Trust Scholarships, awards administered by the Association of Universities and Colleges of Canada, and many others.

In the 2004-05 year, Simon Fraser undergraduates received 334 external scholarships, awards and bursaries totaling \$545,248, an increase of 19% over 2003-04, see the table below. The awards have been categorized by the definitions used for our internal programs: scholarships are based primarily on academic performance; bursaries are based primarily on financial need; and awards are based on community service, excellence in a specific endeavor or a combination of criteria.

Canadian Merit Scholarship Foundation

Included in the numbers reported below are recipients of the Canadian Merit Scholarship Foundation awards. These scholarships are awarded to graduating high school students on the basis of academic excellence, community service and leadership. Simon Fraser University is one of a consortium of Canadian universities that work with the Foundation to select and support recipients. National winners receive a four year award including an annual grant of \$5,000 from the Foundation and an annual tuition waiver to a maximum of \$5,000 from the University. In 2004-2005, Simon Fraser had: 1 National winner in 4th year and 2 Provincial winners. The table below includes the funds from the Foundation but Simon Fraser's disbursements for tuition are reported with the Scholarships for In-Course Undergraduate Students.

Canada Millennium Scholarship Foundation Awards

Also included in the numbers below are recipients of the Canada Millennium Scholarship Foundation merit awards. These scholarships are granted on the basis of academic performance, community service, leadership and entrepreneurship. In 2004-05, there were 7 National Award winners attending Simon Fraser University – 2 new recipients and 5 renewals, 12 Provincial/Territorial Award winners – 3 new recipients and 9 renewals, and 14 local award winners.

The World Petroleum Congress and Canadian Millennium Foundation offered a new award in 2003-2004 to recognize students enrolling in studies related to the petroleum industry who demonstrated academic merit and financial need. In 2004-2005 five SFU students received these awards of \$3,000 each, totaling \$15,000.

Another new scholarship was also established by the Canadian Millennium Foundation in 2003-2004. The National In-Course Millennium Scholarship recognizes upper level post secondary students who demonstrate academic merit and leadership. 12 students were awarded the National In-Course Scholarship in 2004-05. 8 third level students received \$4,000 each, 5 second level students, 3 new recipients and 2 renewals, received \$4,000 each, and 3 first level students, 1 new recipient and 2 renewals, received \$5,000 each, totaling \$62,500.

Financial Assistance also actively promotes the availability of and assists students with the application process for numerous external awards that are not reported in the table below. These awards support students' educational goals during and after studies at Simon Fraser University but are not disbursed through the University. Awards programs in this category include the Rhodes Scholarship, the Queen Elizabeth II BC Centennial Scholarship, and many others. In 2004-2005 Simon Fraser University students received 4 substantial scholarships from the Association of Universities and Colleges of Canada: 2 Fairfax Scholarships valued at \$5,000 renewable for two years and 1 Fessenden-Trott Scholarships valued at \$9,000 renewable for two years.

**Report to the
 Senate Policy Committee on Scholarships, Awards and Bursaries
 Emergency Loan Program 2004-2005**

Short term (60 day), interest-free loans are available to students who require interim emergency funding while awaiting funds from other sources. To receive an emergency loan a student must demonstrate a guaranteed source of repayment, for example an assessed government student loan awaiting documents or confirmation of part-time employment. Emergency loan values are usually no more than \$500 but individual award values depend on the specific circumstances of the student. Some students may receive more than one Emergency Loan during a semester. Students must meet with a Financial Assistance Advisor as part of the assessment process.

In previous years difficulties arising from implementation of new methods of enrollment confirmation and centralization of government loan processing by the loan administration organizations delayed disbursement of funds to students and increased the demand on the Emergency Loan program. Over the past four years there has been less disruption to the disbursement of government assistance to students and a notably positive impact on our Emergency Loan program. Administration of debt collection was the responsibility of Financial Services who provided Financial Assistance with an annual list of bad debts. However, with the transition to SIMS Student Financials bad debt lists were not available in 2003-2004 and 2004-2005.

**Scholarship for In-Course Undergraduate Students
And
Academic and Service Awards for the University Community 2004-2005**

Endowed/Annual Scholarships for In-Course Undergraduate Students

Scholarships funded through endowments and annual gifts from donors are available to continuing, full-time undergraduate students who meet specified criteria and have a minimum cumulative grade point average of 3.50. To be considered, students must submit applications to Financial Assistance by the end of the second week of classes of the semester the scholarship is offered. Endowed and Annual Scholarships are adjudicated directly by the Senate Undergraduate Awards Adjudication Committee (SUAAC). A few of these scholarships are selected by nomination of the academic department and confirmed by the SUAAC. Information about all of these scholarships is published in the University Calendar and listed on the web site in a search capable format.

The table below shows the changes over time in the total number and value of scholarships for in-course students. In 2002-03, the increase in scholarships is primarily due to 32 scholarships totaling \$23,566 provided by the Ministry of Advanced Education to Surrey campus students.

11 new donor funded scholarships, 5 annual donation and 6 endowment, were established in 2004-05.

Academic and Service Awards for the University Community

Academic and Service Awards are given to students, faculty or staff for outstanding performance in an academic area or outstanding service to the University or the community at large. These awards include the Terry Fox Gold Medal, the BC Sugar Achievement Award, the C.D. Nelson Award, Contemporary Arts Awards, History Book prizes and many others. Academic and Service Awards reported in the table below are funded through donor based endowments and annual gifts or by University operating dollars.

Although no additional budget has been allocated to existing SFU funded awards, the Aboriginal Student Leadership Award was created in 2004. Four of these awards valued at \$2,000 each were awarded in 2004-2005.

In addition, 1 Canadian Merit Scholarship Foundation National Scholar received a total of \$3,557 in tuition awards. Canadian Merit Scholars receive funding of tuition costs for two, fifteen credit hour semesters a year for four years from the University and the remainder of their funding from the Foundation (see External Awards report for more information).

8 new awards, 6 annual donation and 2 endowment, were established in 2004-05.

Out of Province and United States Government Student Assistance 2004-2005

Out of Province and United States Student Loans

The tables below report students who are receiving funding through other Canadian provinces or territories and from the United States. Not all provinces advise the institutions of assistance granted to students, particularly grant awards.

The funding received by U.S. students increased by 2.7% from 2003-2004 to 2004-2005. U.S. students appear to be requesting maximum values on all government loan programs available to them. The number of awards has also increased substantially during 2004-2005 and includes subsidized and unsubsidized government loans, private loans, and parental loans. US students receive separate disbursements in each semester of their loan period and an increasing number of students are accessing private loans to supplement their government loans.

Government Part-time Student Assistance and Canada Study Grants 2004-2005

Government Part-time Student Assistance

To be eligible for the federal government Part-time Canada Student Loans (PT-CSL) and Canada Study Grant – for High-Need Part-Time Students (CSG-HNPT), students must be registered in less than nine credit hours and have a demonstrated financial need. In 2004-2005, 98 applications were received for Part-time Loan and Grant. Of those students, 62 qualified for grant only, loan only, or grant and loan with a total assessed need of \$88,392.

Students receiving a Part-time Loan must start making payments on the interest immediately, while still in studies. Many students who are in search of additional financial support cannot afford to make the payments. As a result, the loan program is not well used by Simon Fraser students. In 2004-2005, 48 students were eligible for Part-Time Student Loans with a total award value of \$53,843. Only 28 of the students requested the funding to be issued and, in the end, only 24 students, with a total loan value of \$38,389 cashed their loans. However, there is a significant increase in the number and value of loans released from the previous year. This can partially be attributed to an increase in undergraduate part-time student enrollment of 10 percent in 2004-2005, and may also be due to rising tuition costs resulting in more students accessing the part-time loan program and being eligible for greater loan values.

In order to be eligible for grant funding, students must not only demonstrate financial need but also meet specific criteria for not studying full-time. The list of acceptable conditions for maintaining part-time studies includes: permanent disability, medical, being a single parent, being parent from a low income family, caring for an elderly dependent, taking prerequisites to enter a full-time program and requiring less than nine credit hours to fulfill graduation requirements. The CSG-HNPT program has a maximum award value of \$1,200 per program year and is well used by Simon Fraser students. In 2004-2005, 41 students received grant awards totaling \$44,446. Seven of these students also received part-time loans and are included in the loan statistics.

Canada Study Grant for Female Doctoral Students (CSG-FD)

The federal government offers a grant program to support female doctoral students in specific programs. The goal of the program is to encourage female students with financial need to continue studies to the doctoral level in fields that have an under representation of females based on national statistics.

Commencing 2001/02 these grants were assessed as part of the B.C. Student Assistance Program application and a separate application is not required. For those students who meet the criteria for a CSG-FD, the grants are automatically calculated and the award replaces federal loan funding. In other words, students do not receive additional funding but have a portion of their debt (loan) converted to grant.

	Number of Awards	Total \$ Awarded
04/05	1	3,000
03/04	7	18,327
02/03	3	8,749
01/02	5	14,569
00/01	7	17,781
99/00	6	13,966
98/99	3	8,876
97/98	1	1,769

Note: Statistics are reported for the academic year May 1 to April 30.
