S.81-52

MEMORANDUM

To_____Sena

Senate

Graduate Curriculum Changes - Department of Geography - Course 800-Change of Title Subject and Description Added; Course 802-Description Added; Course 803-Description

From Office of the Dean of Graduate Studies

Date January 30, 1981

Added; Course 805-Description Added.

MOTION:

"That Senate approve and recommend approval to the Board of Governors, as set forth in S.81-52, change of title and addition of description for GEOG 800, and addition of description for GEOG 802-3, 803-3, 805-3."

These changes were approved by the Senate Graduate Studies Committee on January 26, 1981.

> Bryan P. Beirne Dean of Graduate Studies

Simon Fraser University Department of Geography Fall Semester 1980 Geography 800 J.T. Pierce

Course Outline

Objectives:

- A. To critically examine some of the major components and problems in the design and operationalization of geographic research.
- B. To trace the change in the methodological framework within which geographic research has taken place.

Comments:

The central theme of the course, to quote Bauslaugh, is to "encourage critical thinking, the critical use of intelligence, it is to encourage incisiveness and analytical ability, and a healthy scepticism, as well as receptiveness to new ideas".

Content:

Seminar No.

1	<u>s</u> 2	A critical look at reason and the scientific method.
	3	Empirical research: concepts and approaches.
	4	Problem analysis and development of research designs.
	5	Discussion of thesis review.
6	- 8	Production of Data.
9	£ 10	Data Analysis.

11 - 13 Discussion of Thesis Proposals.

Assignments:

Students will be expected to prepare one term paper which will examine the changing approaches in research methodology in the geographic field of their interest.

In addition, two smaller assignments are expected: one, a critical review of a graduate thesis; the other, a proposal for research within the student's field of interest.

Readings:

There is no required text. A detailed list of readings will be available at the beginning of term. Simon Fraser University Department of Geography Fall Semester, 1979 Geography 800-3 S.T. Wong

## Theories & Recent Developments in Physical Geography

#### Course Outline

General: Geog. 802 will review selected recent literature in geomorphology, biogeography and atmospheric science. This literature will be put into historical and philosophical perspective and its importance for understanding the physical environment of the B.C. Lower Mainland will be explored.

#### Administration

The areas of review will be treated in the following order:

Geomorphology (Hickin; first 4 weeks) Biogeography (Hutchinson, weeks 5-8) Atmospheric Science (Sagar; weeks 9-12) General Review (Hickin; final week)

Each of these sections will be the subject of a final examination.

#### Geomorphology:

Details for the first phase of the course will be partly determined at the first meeting of the class (Monday, Sept. 8 at 2 p.m. in Room 7122 CC)

It is planned to conduct a 2-hour weekly seminar based on a reading list that will be distributed at the first class.

Students are strongly advised to read the following background material <u>before</u> the first week of classes:

G.H. Dury, 1969, Perspectives on Geomorphic Processes, A.A.G., Resource Paper 3 (Commission on College Geography), 56 p.

<u>a</u>

S.S. Holland, 1976, Landforms of British Columbia, A Psysiographic Outline: B.C. Dept. of Mines & Petrol. Res., Bull. 48.

Biogeography & Atmospheric Science phases of the course may not necessarily follow the format of the first phase; details will be announced in the first week of classes.

Geography 802

Simon Fraser University Department of Geography Fall Semester, 1980

#### Biogeography Section

- 1. The initial session will consist of a one-day field trip around the Lower Mainland to examine local forest, bog and marsh communities.
- 2. There will be a 2-hour weekly seminar based on the following readings:
  - <u>Week 2</u>. The dynamics of species populations (or how to monitor a fragile non-entity).

Harper, J.L. (1967). A Darwinian approach to plant ecology. J. Ecol. 55: 247-270.

Solbrig, O.T. (1972). The population biology of dandelions. Amer. Sci. 59: 686-694.

Week 3. Ecology of communities: - islands as metaphors.

Ricklefs, R.E. (1979). Ecology, 2nd edition. Chap. 37: Community organization.

Wilson, E.O. and E.O. Willis (1975). "Applied Biogeography" in: Cody, M.L. and J.M. Diamond (eds.) Ecology and Evolution of Communities, pp. 522-534.

Week 4. Ecological models - matrix and dynamic methods.

Horn, H.S. (1976). "Succession" in: May, R.M. (ed.) Theoretical Ecology, pp. 187-204.

Botkin, D.B., J.F. Janak and J.R. Wallis (1972). Some ecological consequences of a computer model of forest growth. J. Ecol. 60: 849-872. SIMON FRASER UNIVERSITY

## Section I

### Seminar Topics

## 1. Critiques of Neoclassical Models of Industrial Location

Hagerstrand (1970); McNee (1971); Massey (1979); see also Harvey (1968).

- 2. "Geography of Enterprise" Perspectives Krumme (1969); McNee (1974 in Hamilton, ed.); Hakanson (1979 in Hamilton and Linge); Fredriksson and Lindmark (1979 in Hamilton and Linge); see also Dickin (1971); Kapp (1976) and Dickin (1977a).
- 3. The Interregional Corporation and Community Stability Krumme (1977, 1979); Krumme and Hayter (1975 in Collins and Walker); Bradbury (1979).
- 4. Branch Plants and Community Truncation Firn (1975); Dickin (1977); Britton and Gilmour (1977); Safarian (1979); Britton (1976).

## Course Outline Geography, 805

L.J. Evenden P.M. Koroscil P.L. Wagner

This is a preliminary note. Phil Wagner, who is to chair this course, has been in Guatemala for some weeks and will not return until after Christmas. As this combination of faculty has not before offered this course, it is not possible to suggest the entire nature of the course until Phil's return.

There is, however, one activity which, subject to Phil Wagner's concurrence, we should like to include as part of the course. That is attendance at the 12th Annual Western Canadian Studies Conference to be sponsored by the History Department of the University of Calgary. The programme is attached. Many of the topics have potential for integration with cultural geographic themes and, depending upon how the course eventually is set out, such integration could well form a focus for assignments. The Conference has in the past formed part of the course. Travel on those occasions was by Department van, but arrangements on this have not yet been made.

Please consider these remarks to be tentative and a firmer outline will be forthcoming when feasible. We have written to the conference organizers indicating the possibility of our attendance as a group.
