

SIMON FRASER UNIVERSITY

S. 295a

MEMORANDUM

To Senate

From L.M. Srivastava

Chairman Senate Committee on Graduate Studies

Subject Graduate Studies

Date November 21, 1969

Admission to graduate programs at this University requires a 3.0 average or better. The exact specifications vary within narrow limits between the Faculties. Further the Faculties and Departments specify varying numbers of credit hours in graduate and undergraduate work that a candidate must obtain before graduation.

However there are no rules which specify what grade point average a graduate student must maintain in order to continue in the graduate program or what grade point average he must have in order to graduate. The Senate Committee on Graduate Studies has devoted considerable time to devising appropriate rules for these purposes and the accompanying paper from that Committee is presented to Senate for approval.
