Academic Board

Paper S-14

The Academic Board met at the University of Victoria on Wednesday, April 25th. Members of the Board had visited two institutions, the Vancouver Bible Institute and Columbia College, in view of the fact that the Minister of Education had asked for advice on accrediting them. Members of the Board discussed the two colleges and agreed on recommendations to the Minister.

They discussed a draft statement of information for school counsellors dealing with transfers from one institution to another. After discussion, the Board agreed to get in touch with the Registrars of the three public universities and see if a statement could be worked out that could be sent to the highschools.

The Chairman of the Board reported that the three universities were continuing to discuss definitions of such things as a "full time equivalent". Dr. Hamilton, of Simon Fraser, will convene a meeting of Registrars and Academic Planners to pursue the matter of definitions.
