Department of History

Head: A.B. Cunningham

Course Requirements in First Four Semesters

The Department offers courses in three streams of study, namely, American History (Canadian, U.S.A., Latin American), Colonial and Imperial history (with special reference, for the present, to Africa and the Middle East) and European history (for the present, Great Britain, France, Germany, Russia). Students intending either a Major or Honors program in History are expected to select their courses from at least two of these streams, and must meet the following requirements before entering Junior studies; these begin in the 5th or 6th semester, and ordinarily in the students' third year.

Grade 12 Students must obtain credit in their first two semesters for three 100-level courses, including 101, and in their third and fourth semesters for four 200-level courses. Students wishing to take any 100-level course work after their second semester at University must obtain Departmental permission, and must obtain at least B standing in the relevant semester examination.

Grade 13 Students can exempt themselves from 101 only by passing an examination on 20th Century History at the commencement of their university program. Otherwise, they are required to obtain credit for four 200-level courses. In some instances, students may be allowed or required to substitute a 100-level course for a 200-level course, and in such cases a B standing will be the acceptable minimum in the relevant examination.

The Dapartment may require any student to audit additional courses as may be necessary.

Foreign Languages: Most graduate schools require some proficiency in one or two foreign languages. Those who contemplate graduate studies in this field are advised to include foreign language courses in their program.
