RE: SIAT BA & BA Honours-Upper Division Requirement Changes

DATE: October 21, 2010

On October 14, 2010, the Faculty of Communication, Art and Technology Undergraduate Curriculum Committee approved the following curricular revisions passed by the School of Interactive Arts & Technology UCC on September 8, 2010:

- Change SIAT BA and BA Honours Requirements Upper Division Requirements > Additional Requirements:
  - Remove IAT 483-3 Special Topics in New Media Environments
  - Add IAT 380-3 Special Topics in Interactive Arts and Technology (Arts)
  - Add IAT 480-3 Special Topics in Interactive Arts and Technology

- Change SIAT BSc and BSc Honours Requirements Upper Division Requirements > Additional Requirements:
  - Remove IAT 484-3 Special Topics in Technology in Arts and Design
  - Add IAT 381-3 Special Topics in Interactive Arts and Technology (Science)
  - Add IAT 481-3 Special Topics in Interactive Arts and Technology (Science)

Rationale:
IAT 483 and 484 have never been offered and were intended to be a part of streams that were in SIAT between 2003 and 2007. IAT 483 and 484 have titles that reflect concentrations that were phased out in 2007. This was an

oversight in our last curriculum change in 2007 and needs to be corrected to reflect the current courses offered at SIAT. Conversely, IAT 380, 381, 480, and 481 are being used in our current curriculum and need to be recognized.

Notes:

- The rationale to having 2 courses count towards the B.A. degrees, and 2 that count towards the B.Sc. is that they are different degrees requiring different courses for graduation. As such, it is felt that having separate "Arts" and "Science" special topics courses is necessary for those pursuing our degrees.
- IAT 480 does not have (Arts) affixed to the end of it. This is the name of the course officially in the university calendar as approved by SCUS. We will be submitting a course change form to change the title of this course in Fall 2010, at which point the Calendar language will be automatically updated to reflect the new course title.
- These are listed as "Upper Division Requirements > Additional Requirements". This is the terminology used by the university calendar as viewed at http://students.sfu.ca/calendar . It is not intended to say these are required courses; rather, they are to be viewed as one of a list of options towards either the B.A. or B.Sc., as shown in the calendar.
- When we do offer special topics courses, they get a special topic coded by the Registrar's office. An example would be:

* IAT 380-3 Special Topics in Interactive Arts and Technology (Arts) – ST: Sound Design.

- There is a distinction between Arts courses and Science courses for special topics. This is intentional and is necessary because we must have differentiation between our B.A. and B.Sc. degrees.

Effective Date: Fall 2011

Would you please place these items on the agenda of the next meeting of SCUS?

Thank you,

DK/sam

RE: Course Title, Description, and Prerequisite Changes: WKTM 100/200/300/400 to IAT 271/272/373/374, New Course Proposal: IAT 375

DATE: October 21, 2010

On October 14, 2010, the Faculty of Communication, Art and Technology Undergraduate Curriculum Committee approved the following curricular revisions passed by the School of Interactive Arts and Technology UCC on January 13, 2010:

- Course Change Proposal: Change WKTM 100 to IAT 271
- Course Change Proposal: Change WKTM 200 to IAT 272
- Course Change Proposal: Change WKTM 300 to IAT 373
- Course Change Proposal: Change WKTM 400 to IAT 374
- New Course Proposal: IAT 375

These pertain to Co-operative Education courses in use exclusively by SIAT effective Fall 2010. Like all other SFU co-op programs, SIAT should use its own coding course codes for practicum coursework. The WKTM courses were created during the transition from TechBC due to the uncertainty around the future of the Surrey campus at the time and a lack of a permanent program in place. With SIAT having been established in 2003, these courses are due to be properly incorporated into the IAT curriculum.

These are being submitted as course change proposals for legacy reporting purposes to ensure as much continuity of data as possible for our co-operative education department. At one point, these codes were shared with Computing Science co-op at Surrey due to shared staff resources, but CMPT began using CMPT co-op course codes prior to Fall 2010. Note that with the small presence of CMPT at Surrey, the number of work terms completed by those

students was relatively minor. Nav Chima and Frances McLafferty in SIAT/CS Co-operative Education have verified that their preference would be to use Course Change as opposed to a New Course Proposal to ensure accurate statistics over the last 7 years. They have also verified there is a student need for a 5th term of work experience, and as such a new course proposal for IAT 375 is included.

Effective Date: Fall 2011

Would you please place these items on the agenda of the next meeting of SCUS?

Thank you,

IAT 402 – Interdisciplinary Design Studio I (Science)
IAT 403 – Interdisciplinary Design Studio I (Arts)
IAT 404 – Interdisciplinary Design Studio II (Science)
IAT 405 – Interdisciplinary Design Studio II (Arts)

SIAT B.Sc. students enroll in the Science designated sections and SIAT B.A. students enroll in the Arts designated sections. However, IAT 402/3 and IAT 404/5 are offered in combined sections and do not differ in content. Therefore SIAT's course listings and degree requirements should reflect this. We are proposing to remove IAT 402 and 404 and use IAT 403 and 405 to satisfy degree requirements for all SIAT Majors, Joint Majors and Honors students.

The requested effective date of these changes is Fall 2011.

Please place this/these proposal(s) on the agenda of the next meeting of the Faculty of Communication, Art and Technology Undergraduate Curriculum Committee.

COURSE CHANGE/DELETION FORM

Existing Course Number: IAT 402-3

Existing Title: Interdisciplinary Design Studio I (Science)

Please check appropriate revision(s):

Course Number:_____ Credit Hours: _____ Title: _____

Description: _____ Prerequisite: _____ Vector: _____
(Lect/Sem/Tut/Lab)

Course deletion: __X__

RATIONALE:

Currently SIAT's design studio course I is divided into two offerings, IAT 402 for SIAT B.Sc. students and IAT 403 for SIAT B.A. students. IAT 402 and IAT 403 are run as combined sections and do not differ in content. We are proposing to remove IAT 402 and use IAT 403 for all SIAT Majors with the new title of Interdisciplinary Design Studio I.

If this course replicates the content of a previously approved course to the extent that students should not receive credit for both courses, this should be noted in the prerequisite.

Effective term and year: FALL 2011
