

# SIOON FRASER UNIVERSITY

## MEMORANDUM

To..... H. Evans, Registrar.....

From..... Marvin F. Wideen, Director.....

..... Undergraduate Programs.....

Subject... EDUC.. 429.....

Date... 13th October, 1978.....

This is in response to a memorandum from Harvey Nagel drawing our attention to the fact that Educ. 429 had not been offered for six semesters. Normally, this would require that the course be dropped from the books. This is to request that the course remain on the books for an additional two semesters. The reason for this request is that we are currently reviewing all undergraduate courses in our Faculty; it is expected that the process will be completed by next April.

This is in response to Mr Nagel's memo of 13/July/79 regarding the deletion of courses not offered for the past two semesters. <sup>dated 13/Oct/78</sup> By requesting my request, to have ~~the~~ Educ 429 remain on the books for an additional two semesters was based on the premise that the Undergraduate Programs Committee would have completed a review of courses by ~~that~~ this time. However, as you will recall, the UPC course review was ~~not~~ <sup>severely delayed</sup> last semester (79-1) pending a more general review of the direction <sup>to be taken by</sup> of our Faculty. It would seem that we should again request ~~that the~~ <sup>Senate</sup> SCVS to retain ~~this course~~ <sup>Educ 429</sup> until such time as the Faculty review and subsequently the UPC review have run their course. I would note that out of 46 offerings listed in our calendar, this is the only course ~~not~~ <sup>not</sup> duplicated in ~~the~~ Mr Nagel's memo.
