"Just as we recognize that every student has a right to read, so we should recognize that every student has a right to be 'legally literate', to possess that minimum amount of information needed by citizens to understand how their legal system works and how it can work for them."

(D. Schimmel)

Law-related topics, concepts and skills can be found in the elementary and secondary school curriculum in B.C. in subjects such as Language Arts, Social Studies, English, Consumer Education and, of course, Law 11. Teachers also teach legal concepts through the informal curriculum - the way classrooms are managed, conflict is resolved andf student participation is sought.
