

EDUCATION 464-4 EARLY CHILDHOOD EDUCATION

This course will explore theory, research, and practice concerning the education of young children in the age range of 3 to 8 years. The broad goals of this course are:

1. to develop an awareness of a number of current issues concerning the education of young children.
2. to encourage critical thinking about these issues.
3. to encourage an appreciation of the uniqueness of all children within the context of developmental norms.
4. to encourage reflection on values and beliefs and to understand how those values and beliefs influence practice with young children.

PREREQUISITE: EDUC 401/402 or PSYC 250.
