Educ 477 Mentor Alternative

- Intended as an option for students with a BFA or other advanced qualifications.
- All the regular course material and information would still be available and mentors could “cherry pick” to suit their needs, putting together an individual course package within the structure of the evaluation guidelines.
- Mentors would act as “go-betweens” with groups of art beginners in the class, being a resource for advice, help and interpretations.

Evaluation

Gallery Visit Paper (20%)

Mentors would supplement my ECIAD Grad Show field trip with some content of their own for their group, using a different model than my class “Treasure Hunt. Grading would be based on this and a reflection/self evaluation.

Issues/Curriculum Paper (30%)

Either the Issues or the Curriculum option given to the whole class would be appropriate.

Portfolio (50%)

Mentors would be expected to develop lesson ideas to supplement what I teach the class, for content areas related to their particular skill set.

Mentors would do the “Passages” individual studio piece.

Mentors would keep a visual journal combining records of mentoring issues and experiences along with ongoing drawings related to their interests or supplementing their mentoring record in the style of David Hockney, recording the process of paper making as part his “Paper Pools” project.

It would be appreciated if students interested in this option are able to contact the instructor before the course begins.
