

EDUCATION 479-4
DESIGNS FOR LEARNING: PHYSICAL EDUCATION
SECONDARY

SUMMER SESSION, 1984

Tuesdays/Thursdays, 1:00 - 4:50

INSTRUCTOR: George Longstaff

Location: on campus

Topics to be covered:

1. Curriculum Overview - A review of the mechanics of curriculum writing, the 1980 guide, and the implications of implementation since 1980.
2. Individualization of Instruction - The process of grouping for instruction with specific reference to the levels approach as proposed in the guide.
3. Teacher Effectiveness - The basic principles of teacher effectiveness as they relate to physical education. This will be done partly with observation of teaching procedures through video tape.
4. Square/Folk Dance - The basic progressions in teaching dance will be covered with a variety of dances being introduced.
5. Gymnastics - The levels approach to teaching gymnastics will be presented together with skills analysis.
6. Outdoor Pursuits - The general principles and safety procedures of teaching outdoor activities together with a specific session in canoeing will be offered.
7. Raquet Sports - The general principles of raquet sports with an emphasis on badminton and tennis will be offered.
8. Basketball - The teaching progressions using the levels approach will be presented.
9. Volleyball - The teaching progressions using the levels approach.
10. Soccer - Teaching progressions and skill development.
11. Physical Fitness - Aerobics principles / Weight training principles / Running principles
12. Student Evaluation - Techniques for evaluating in the psychomotor, affective and cognitive domains will be presented and discussed.

EVALUATION PROCEDURES

1. A compendium of resource material (20%)
 2. Student Evaluation Instrument (20%) - Take one activity and prepare a cognitive, psychomotor and affective instrument at one level.
 3. An Annual Plan (40%) - A plan for a school including goals, program content, program balance, administrative details and evaluation procedures.
 4. A Unit Plan (20%) - A detailed unit plan including lesson plans. This can be a unit of the students choice.
- * More detail will be provided on these assignments.
