To Warren Gill, Coordinator,
Downtown Programs
✓ Marvin Wideen, Faculty of
Education
Subject EDUC 486-4 (Downtown Course)
Spring 1980 Semester

From Jack Blaney, Dean
Continuing Studies
Date December 5, 1979

The following is the course outline for EDUC 486-4 - Selected Topics in Program Development and Instructional Techniques:

An examination of a selection of program development and instructional techniques applicable to a variety of settings such as industry, schools, colleges and government agencies.

Contents of the course will reflect the needs and interests of the students. Topics will include:

- principles of instruction
- curriculum development
- measurement and evaluation
- procedures for improving instruction
- task analysis
- formulation and use of objectives
- techniques in lecturing, questioning, simulation and gaming, etc.

Readings and assignments will relate to student interests and professional responsibilities.
