RE:	Provost, and Chair, SCUP Faculty of Science: Dissolution of the Ergono (SCUP 13-44)	omics an	d Human Factors Concentration
At its Sant	omber 25, 2013 meeting, SCUP reviewed and	approve	ad the proposal to dissolve the

At its September 25, 2013 meeting, SCUP reviewed and approved the proposal to dissolve the Ergonomics and Human Factors Concentration, Kinesiology Major and Honours Program in the Department of Biomedical Physiology and Kinesiology within the Faculty of Science, effective Summer 2014.

Motion:

That Senate approve and recommend to the Board of Governors the dissolution of the Ergonomics and Human Factors Concentration, Kinesiology Major and Honours Program in the Department of Biomedical Physiology and Kinesiology within the Faculty of Science, effective Summer 2014.

c: R. Dill

OFFICE OF THE ASSOCIATE VICE-PRESIDENT, ACADEMIC

MEMORANDUM			
ATTENTION	Senate Committee on University	DATE	September 13, 2013
	Priorities		
FROM	Gordon Myers, Chair	PAGES	1/1
	Senate Committee on Undergraduate		
	Studies	٨	A.C. A.
RE:	Faculty of Science (SCUS 13-41)	LAN	es (Unfages)
			<u> </u>

Action undertaken by the Senate Committee on Undergraduate Studies at its meeting of September 12, 2013, gives rise to the following recommendation:

Motion 1:

That SCUP approve and recommend to Senate the dissolution of the Ergonomics and Human Factors Concentration, Kinesiology Major and Honours Program in the Department of Biomedical Physiology and Kinesiology within the Faculty of Science.

The relevant documentation for review by SCUP is attached.

To: Dr. Gord Myers, Chairperson, Senate Committee for Undergraduate Studies, Simon Fraser University

From: George Agnes, Associate Dean, Academic, Faculty of Science

Motion: Termination of the following programs;

- Ergonomics and Human Factors Concentration, Kinesiology Major Program – Department of Biomedical Physiology and Kinesiology, Faculty of Science.

&

- Ergonomics and Human Factors Concentration, Kinesiology Honors Program - Department of Biomedical Physiology and Kinesiology, Faculty of Science.

<u>Location of the Programs:</u> Both concentrations are based in the Department of Biomedical Physiology and Kinesiology, Burnaby Campus.

Faculty: Science

Date of activation of this Motion: Summer 2014 update to the academic calendar.

<u>Reason for Termination of Programs</u>: There are currently no students registered in either program. Also, the department of Biomedical Physiology and Kinesiology (BPK) has recently created a new program in this area, Occupational Ergonomics Certificate, approved at Senate July 8th, 2013.

<u>*Plan for Suspension:*</u> The BPK faculty have long since approved the plan. Advisors are aware of the pending termination of these programs.

The focus of the BPK faculty members' teaching efforts in this area will now be on the new Occupational Ergonomics Certificate. The certificate was designed following the recommendations of our External Review. BPK has lost several faculty members to retirements in the area of Ergonomics over the last five years. There is no plan to replace these faculty members and BPK is no longer able to offer the Ergonomics Concentration as part of our Kinesiology Major.

<u>Draft Calendar Entry</u>: On May 2014, the concentrations of Ergonomics and Human Factors, Major and Honours programs in the Department of BPK will no longer exist.

Institutional Contact Person: Dr. Clair Cupples, Dean, Faculty of Science, scdean@sfu.ca, 778-782-3771.
