VP Research  
SFU

Dear Mario Pinto:

On behalf of the members of the BC Synchrotron Institute, I would like to request that the centre be officially terminated. The aims of the centre have been accomplished. BC researchers are actively using beamlines at the Canadian Light Source. There is little need of, or will to organize, further activities related to this centre within BC.

Sincerely,

Karen L. Kavanagh  
Director BCSI  
Professor
