

SIMON FRASER UNIVERSITY
DEAN OF GRADUATE STUDIES
MEMORANDUM

TO: Senate
FROM: Jonathan Driver, Dean of Graduate Studies
SUBJECT: For information: GS2005.39 (c) Graduate Diploma: Foundations of Global Health Studies: New Courses
DATE: 18th October 2005
cc: SCUP for information

At the SGSC meeting of 17th October 2005 a new graduate diploma in the Faculty of Health Sciences - Foundations of Global Health Studies – was discussed and has been recommended to SCUP for approval. Some new courses associated with this diploma were submitted as a separate item and approved by SGSC, and the following summary is provided to Senate for information.

Faculty of Health Sciences: new courses

GLOH 501-4

Seminar - Selected research applications in global health

GLOH 510-4

Numerical, analytical, and computational foundations for global health studies

GLOH 520 -4

Research methods for evidence-based inference in global health

GLOH 530-4

Foundations of epidemiology in global context

GLOH 540-4

A global perspective on the organization and delivery of health services

Senators wishing to consult the documents concerning these items should contact Bobbie Grant, Senate Assistant at (604) 291-3168 or bgrant@sfu.ca
