MEMORANDUM

To..... Dr. R. Frindt, Chairman
.....
..... Faculty of Science Undergraduate Committee
.....
Subject..... Selected Topics Courses

From..... R. Routledge
.....
..... Department of Mathematics & Statistics
.....
Date..... November 21, 1984

Attached are proposals for two selected topics courses, one at each of the 100- and 300- levels. We were recently forced to mount an experimental course using a 200- level special topics number when a 100- level number would have been much more suitable. As we envisage using these course numbers only to mount experimental courses or courses which we do not intend to offer on a regular basis, their approval implies no continuing commitment of resources. Would you please place these proposals on the agenda of your next meeting?
