

MEMORANDUM

To..... SENATE

From..... SENATE COMMITTEE ON UNDERGRADUATE STUDIES

Subject..... CHANGES - DEPARTMENT OF CHEMISTRY

Date..... APRIL 2, 1985

Action undertaken by the Senate Committee on Undergraduate Studies at its meeting of April 2, 1985 gives rise to the following motion:

MOTION:

"That Senate approve and recommend approval to the Board of Governors, as set forth in S.85-23, deletion of the following courses:

NUSC 446-2 Nuclear Chemistry Laboratory
CHEM 420-3 Clinical Chemistry I
CHEM 423-3 Clinical Chemistry II
CHEM 424-2 Clinical Chemistry Laboratory
CHEM 483-15 Individual Study Semester"

Date.....
File: C.4102

At its meeting of December 7, 1984, the Chemistry Department approved the deletion of the following courses:

1. NUSC.446-2 - Nuclear Chemistry Laboratory, effective September, 1985.
Rationale: Low enrolment.

Some of the experiments will be incorporated in NUSC.346 and CHEM.367. This deletion will reduce the number of upper-division credits available for the NUSC Minor from 28 to 26 (min. requirement: 14).

2. CHEM.420-3, 423-3 and 424-2: Clinical Chemistry. Rationale: CHEM.424 has never been offered, while CHEM.423 and 424 were taught by adjunct professors whose positions have been eliminated during the recent budget cuts.
3. CHEM.483-15: Individual Study Semester. Rationale: Over-specialization, large variability in standards, grade and credit inflation. CHEM.481-5 (Undergraduate Research) fulfills the research function more adequately and will be required of all Chemistry Honours students.
