

SIMON FRASER UNIVERSITY

S.86-86

MEMORANDUM

To..... Senate.....

From..... Office of the Dean of Graduate Studies.....

Subject..... Graduate Curriculum Changes - Department of Psychology.....

Date..... November 12, 1986.....

Action undertaken by the Senate Graduate Studies Committee, at its Meeting of November 10, 1986, gives rise to the following motion:

MOTION: "That Senate approve and recommend approval to the Board of Governors, as set forth in S.86-86 , the proposed changes in the Department of Psychology:

Delete: M.A. Program in Clinical Psychology

Ph.D. Program in Clinical Psychology

Add: Program in Clinical Psychology

The Ph.D. program in clinical psychology is accredited by the Canadian Psychological Association and the American Psychological Association. It is based upon a scientific-professional model of clinical training.

Admission

All applicants are required to submit scores on the Graduate Record Examination (verbal, quantitative, analytical, advanced psychology sections), official transcripts, three letters of academic reference and a statement of purpose. Top ranked candidates will be interviewed in person or by telephone prior to final selection. Students admitted with a bachelor's degree must complete the master's program requirements (first two years), prior to admission to the Ph.D. program. Students transferring from other graduate programs may petition the department for credit for equivalent courses.

Degree Requirements

Requirements for completing the clinical program are summarized in Table 1. Students registered in the clinical program are required to complete satisfactorily the following three departmental core courses: Psychology 600, 601, 602. Two of these courses must be completed in the first two years of the program. In addition, students are required to complete satisfactorily Psychology 744, 770, 820/821, 822/823, 824, 880 (practicum), 910, 911 and 898. Normally, students will complete these courses in the first two years of the program. After successful completion of these courses, students may then be admitted to the Ph.D. program and complete the remaining three years of the program (see Table).

Students in residence in the third year and beyond are required to maintain a clinical caseload and/or engage in other clinical work (e.g., program evaluation), under the supervision of clinical faculty. General supervision of students in the clinical program is exercised by the Clinical Committee.

TABLE I

<u>YEAR</u>	<u>SEMESTER</u>	<u>COURSE</u>
I	Fall	Psyc 744 Proseminar in Psychopathology
		Psyc 820 Seminar in Individual Assessment
		Psyc 821 Practicum in Individual Assessment
		Psyc 910 Research Design I
	Spring	Psyc 770 Proseminar in Personality
		Psyc 820 Seminar in Individual Assessment
		Psyc 821 Practicum in Individual Assessment
		Psyc 911 Research Design II
	Summer	Psyc 880 Practicum
II	Fall	Psyc 822 Seminar in Intervention
		Psyc 823 Practicum in Intervention
		Psyc 824 Research Design in Clinical Psychology
		Psyc Core Course*
	Spring	Psyc 822 Seminar in Intervention
		Psyc 823 Practicum in Intervention
		Psyc Core Course*
	Summer	Psyc 898 Master's Thesis
	III	Fall
Psyc 819 Ethics & Professional Issues		
Psyc Advanced Topic		
Spring		Psyc Advanced Topic
		Comprehensive Examinations
Summer		Psyc 899/ Dissertation/Internship
IV	Fall	886
		Psyc 899/ Dissertation/Internship
	886	
	Spring	Psyc 899/ Dissertation/Internship
	886	
Summer	Psyc 899 Dissertation	
V	Fall	Internship/Dissertation
	Spring	Internship/Dissertation
	Summer	Internship/Dissertation

* The required core courses are Psyc 600 (Biological Bases of Behavior), 601 (Cognitive and Affective Bases of Behavior), 602 (Developmental and Social Bases of Behavior).

Supervisory Committee

Students must satisfy two research requirements: an MA thesis and Ph.D. dissertation. For the MA thesis, students must establish a Supervisory Committee before the end of their first semester in the program. The MA Supervisory Committee will consist of at least two faculty members from the Psychology Department, one of whom will be the Senior Supervisor and Chairman of the Committee. Other faculty outside the Department who are considered necessary by the student and Senior Supervisor may serve on the Committee. The Ph.D. Dissertation committee should be established by the end of the first semester following admission to the Ph.D. program. Students are required to choose a faculty member in the Psychology Department as the Senior Supervisor and Chairperson of their Ph.D. Supervisory Committee and two or more additional members. At least two of the committee members must be members of the Psychology Department, and at least one member of the Committee must be able to act as advisor with respect to measurement and design aspects of the thesis research.

Ph.D. Comprehensive Examination

The Clinical faculty will design a written and oral Ph.D. Comprehensive Examination to be held in the Spring of each year. This examination may be taken after admission to the Ph.D. program plus successful completion of at least three of the required third year courses. (Note: The third course may be taken in the semester in which the student intends to write the Ph.D. examination). The Comprehensive Examination may be retaken only once; and it must be successfully completed prior to registration in the Ph.D. level Internship, Psyc 886, and before submission of the Ph.D. Dissertation."

Rationale for these changes is attached.

MEMORANDUM

To..... Dr. B. Clayman, Dean

..... Graduate Studies

Subject..... Curriculum Revision

From..... Sheila Roberts, Secretary

..... Faculty of Arts

..... Graduate Studies Committee

Date..... October 20, 1986

The Faculty of Arts Graduate Studies Committee at its meeting of October 15, 1986 recommended changes to the Psychology graduate programme as outlined in the attached.

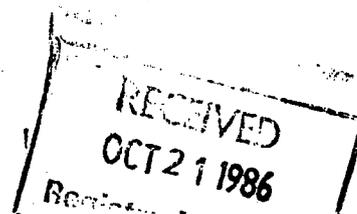

Would you please place this item on the agenda of the next meeting of Senate Graduate Studies Committee.

Thank you.

MEMORANDUM

To Mike Roberts, Associate
Dean of Arts

From Marilyn Bowman, Chairman
Psych. Grad. Studies C'ttee

Subject Calendar changes;
Graduate Program

Date September 26, 1986

.....

The American and Canadian Psychological Associations have accredited our PhD Program in Clinical Psychology. This Program requires students to do coursework and a thesis at the MA level, and further coursework, an internship, and a dissertation at the PhD level. Because, the MA course requirements are different for Experimental Psychology and Clinical Psychology students, their programs are listed separately in the Calendar. Naturally, the Program for Clinical Students is labelled the "Clinical MA Program." That creates a problem for APA and CPA, however, since they accredited a Clinical PhD Program, not a Clinical MA Program. In order that a clinical psychology student who terminates at the MA level does not represent the degree as an accredited "Clinical MA," we have been asked by the accrediting agencies to change the degree label.

This request is easily accomodated; the proposed calendar entry simply lists the MA level and PhD level requirements for clinical students under a single heading: "Program in Clinical Psychology." No requirements are being deleted and none is being added; only the labels and the way the information is packaged have changed.

While making this format change, we are taking the opportunity to explicate two features of the Clinical Program that should be formally recognized: senior students' caseload work, and the supervisory role of the Department's Clinical Committee. These are described in the two sentences immediately preceding Table 1 in the proposed entry.

- copies - Bill Krane
- Ron Roesch
- Bev Davino
- Roger Blackma

M. Bowman

Bill Krane + Ron Roesch will be attending the

meeting - Bill replacing me

- Ron as the Director of the Clin. Program

The completed thesis will be defended in oral examination. Judgment will be made by an Examining Committee.

For further information and regulations, refer to the General Regulations.

to be changed to

M.A. PROGRAM IN CLINICAL PSYCHOLOGY

Admission

Students applying to the Clinical program must satisfy the M.A. Program admission requirements of the Experimental Program.

M.A. Supervisory Committee

Students in the Clinical program must satisfy the M.A. Supervisory Committee requirements of the Experimental Program.

Degree Requirements

Required Courses for the Clinical Program:

Students registered in the Clinical program are required to satisfactorily complete 2 of the following Core courses: PSYC 600, PSYC 601, or PSYC 602; PSYC 910 and 911 (or their equivalent); PSYC 744, PSYC 770, PSYC 820 and PSYC 821, PSYC 822 and PSYC 823, PSYC 824 and a Practicum, PSYC 880.

M.A. Thesis

In addition to the course requirements of the M.A. Clinical Program, students must complete an M.A. thesis. For a descriptive outline of the M.A. thesis, refer to the thesis requirement of the M.A. Experimental Program.

PH.D. PROGRAM IN CLINICAL PSYCHOLOGY

Admission

For admission requirements refer to the Ph.D. admission requirements of the Experimental program.

Ph.D. Supervisory Committee

Students in the Clinical program must satisfy the Ph.D. Supervisory Committee requirements of the Experimental Program.

Degree Requirements

In addition to the M.A. requirements of the Clinical program, students in the Ph.D. program must take the remaining Core course (i.e., the one remaining after two of PSYC 600, 601, or 602 have been taken), PSYC 819, Two Advanced Topic courses, and a one-year full-time Internship, PSYC 886.

Ph.D. Comprehensive Examination

The Clinical faculty will design a written and oral Ph.D. Comprehensive Examination to be held in the Spring semester of each year. This Examination may be taken after successful completion of three Ph.D.-level courses: (The third course may be taken in the semester in which the student intends to write the Ph.D. Comprehensive Examination). The Comprehensive Examination may be retaken only once; and must be successfully completed prior to registration in the Ph.D. level Internship, PSYC 886, and before submission of the Ph.D. thesis.

Ph.D. Thesis

Students registered in the Clinical program must satisfy the Ph.D. thesis requirement of the Experimental Program.

DESCRIPTION OF PSYCHOLOGY GRADUATE COURSES (PSYC)

- PSYC 600-5 Biological Bases of Behavior
- PSYC 601-5 Cognitive and Affective Bases of Behavior
- PSYC 602-5 Developmental and Social Bases of Behavior
- PSYC 603-5 Individual Differences
- PSYC 705-3 Proseminar in History and Systems
- PSYC 715-3 Proseminar in Measurement
- PSYC 720-3 Proseminar in Learning
- PSYC 725-3 Proseminar in Cognition
- PSYC 730-3 Proseminar in Perception
- PSYC 740-3 Proseminar in Motivation
- PSYC 744-3 Proseminar in Psychopathology
- PSYC 750-3 Proseminar in Developmental Psychology
- PSYC 760-3 Proseminar in Social Psychology

Program in Clinical Psychology

The Ph.D. program in clinical psychology is accredited by the Canadian Psychological Association and the American Psychological Association. It is based upon a scientific-professional model of clinical training.

Admission

All applicants are required to submit scores on the Graduate Record Examination (verbal, quantitative, analytical, advanced psychology sections), official transcripts, three letters of academic reference and a statement of purpose. Top ranked candidates will be interviewed in person or by telephone prior to final selection. Students admitted with a bachelor's degree must complete the master's program requirements (first two years), prior to admission to the Ph.D. program. Students transferring from other graduate programs may petition the department for credit for equivalent courses.

Degree Requirements

Requirements for completing the clinical program are summarized in Table 1. Students registered in the clinical program are required to complete satisfactorily the following three departmental core courses: Psychology 600, 601, 602. Two of these courses must be completed in the first two years of the program. In addition, students are required to complete satisfactorily Psychology 744, 770, 820/821, 822/823, 824, 880 (practicum), 910, 911, and 898. Normally, students will complete these courses in the first two years of the program. After successful completion of these courses, students may then be admitted to the Ph.D. program and complete the remaining three years of the program (see Table). Students in residence in the third year and beyond are required to maintain a clinical caseload and/or engage in other clinical work (e.g., program evaluation), under the supervision of clinical faculty. General supervision of students in the clinical program is exercised by the Clinical Committee.

YEAR	SEMESTER	COURSE	TABLE I

	Spring		Internship/Dissertation
	Summer		Internship/Dissertation

* The required core courses are Psyc. 600 (Biological Bases of Behavior), 601 (Cognitive and Affective Bases of Behavior), 602 (Developmental and Social Bases of Behavior).

Supervisory Committee

Students must satisfy two research requirements: an MA thesis and Ph.D. dissertation. Prior to the MA thesis, students must establish a Supervisory Committee before the end of their first semester in the program. The MA Supervisory Committee will consist of at least two faculty members from the Psychology Department, one of whom will be the Senior Supervisor and Chairman of the Committee. Other faculty outside the Department who are considered necessary by the student and Senior Supervisor may serve on the Committee. The Ph.D. Dissertation committee should be established by the end of the first semester following admission to the Ph.D. program. Students are required to choose a faculty member in the Psychology Department as the Senior Supervisor and Chairperson of their Ph.D. Supervisory Committee and two or more additional members. At least two of the committee members must be members of the Psychology Department, and at least one member of the Committee must be able to act as an adviser with respect to measurement and design aspects of the thesis research.

Ph.D. Comprehensive Examination

The Clinical faculty will design a written and oral Ph.D. Comprehensive Examination to be held in the Spring of each year. This examination may be taken after admission to the Ph.D. program plus successful completion of at least three of the required third year courses. (Note: The third course may be taken in the semester in which the student intends to write the Ph.D. Examination). The Comprehensive Examination may be retaken only once; and it must be successfully completed prior to registration in the Ph.D. level Internship, PSYC 886.
