MEMORANDUM

To..... SENATE COMMITTEE ON ACADEMIC PLANNING

From H.M. EVANS, SECRETARY (Protem) SCAP

Subject..... PROPOSED DEGREE FOR THE FACULTY OF
BUSINESS ADMINISTRATION - BACHELOR
OF BUSINESS ADMINISTRATION

Date MAY 5, 1982

At the meeting of SCAP held April 7th., there was very brief discussion of SCAP 82-9 on the above-mentioned topic, motion was made "that the name of the degree to be granted by the Faculty of Business Administration be Bachelor of Business Administration", there was some question of using major in Business Administration when the title includes such words, comment was made that the question of joint majors and joint honors had not been considered in conjunction with this proposal, motion was made "that paper SCAP 82-9 be tabled pending further consideration of possible variations and combinations of programs which could affect the proposed degree title" - the motion to table carried.

There obviously was misunderstanding and misinformation. These various items had been discussed by earlier groups and it was believed they had been disposed of, with some deemed of insufficient consequence to need statements in the submission.

Under the present general University structure, at the undergraduate level to qualify for a Bachelor's degree (with the exception of the BGS degree and some provisions for double minors on the B.Ed degree) a student is required to complete a Major program or an Honors program. In a number of instances there are provisions for a Joint Major program or Joint Honors program. In addition a student may take two Major programs (Double Major), or may include one or more Minor programs. There are other provisions.

Under the present programs offered in the Faculty of Arts, for those interested in Business Administration there is provision for the following:-

- Major in Business Administration
- Honors in Business Administration
- Joint Major in Business Administration and Economics
- Joint Honors in Business Administration and Economics
- Minor in Business Administration
- Various additions of another Major, or Honors, or one or more minors under the general regulations of the University.

Under the proposed programs to be offered in the Faculty of Business Administration there continues to be provision for each of the above. The present proposal therefore is following the long-time general structure of the University and practice as at present in Business Administration.

Students undertaking the standard undergraduate programs in the Faculty of Business Administration usually will be qualifying for a Bachelor of Business Administration, with

- Major in Business Administration or
- Joint Major in Business Administration and Economics or
- Honors in Business Administration or
- Joint Honors in Business Administration and Economics or
- anyone of the other combinations available.

If the proposal is approved it is intended to introduce this degree title for September, 1982, subject to UCBC approval.
