S. 82-135

MEMORANDUM

To..... Mr. H. M. Evans
..... Secretary of Senate
Subject..... S.C.C.S. Annual Report

From..... Dennis Foth, Secretary
..... Senate Committee on
..... Continuing Studies
Date..... October 14, 1982

Please find enclosed two statistical/informational reports on undergraduate extension credit courses and programs and credit-free activities of the Faculties and departments of the University for the period May 1, 1981 through April 30, 1982. These documents constitute the annual report of the Senate Committee on Continuing Studies.

Enclosure

Senate Committee on Continuing Studies

REPORT ON UNDERGRADUATE
EXTENSION CREDIT COURSES
May 1, 1981 - April 30, 1982

This report describes the numbers of undergraduate extension credit course offerings and associated course enrollee figures of the Departments/Faculties of the University for the period May 1, 1981 through April 30, 1982. By way of definition, extension credit courses include those that are offered on-campus after 4:30 p.m. of the regular semesters or during the days or evenings of Intersession (May - June) or Summer Session (July - August), those that are offered in downtown Vancouver (day or evening), those that are offered off-campus in a classroom (e.g., at Kelowna, Prince George), and those that are available throughout the province via print or print and audio tapes - i.e., the Directed Independent Study (correspondence) Course Program.

A summary of the numbers of extension credit course offerings and the numbers of course enrollees for each type of extension course is presented in Table 1. A total of 21,160 course enrollees was recorded in 684 extension credit course offerings during 1981-82, 10.1% (1,935) more enrollees than for the same period of 1980-81. This increase accounted for slightly more than one-half of the 4.8% increase to the total university undergraduate enrollment for the period (76,290 course enrollees, 3,471 more than for 1980-81). The

number of enrollees in extension credit courses during 1981-82 represented nearly 28% of the total number of undergraduate enrollees, an increase of 1% over the 1980-81 proportion.

I On-Campus and Downtown Undergraduate Extension Credit Programs

A summary of the number of courses and course enrollees by Faculty for each of the three semesters of 1981-82 and 1980-81 is presented in Table 2. Course enrollees increased by 1,331 or 7.8%. The Downtown Program attracted 322 (17.7%) more enrollees in 1981-82 than in 1980-81 (2,145 vs. 1,823); the On-Campus Programs increased by 1,009 (6.6%) enrollees over the same period (16,208 vs. 15,199). On a Faculty basis, Arts and Education recorded increases of 8.0% and 6.2%, respectively, and Interdisciplinary Studies remained about the same as last year. The Faculty of Science recorded a 54.7% increase in enrollees, the larger part of this increase occurring during the Fall Semester, 1981.

II Off-Campus Undergraduate Credit Programs

A summary of the number of off-campus courses and course enrollees by program is presented in Table 3. About one-half of the 45% increase in enrollees in these programs is attributable to the Latin American Studies Field School which was held in Peru during the Summer, 1981 but not offered

during 1980. The remainder of the increase occurred primarily in courses offered at interior sites in support of Faculty of Education programs and in courses offered as part of the Senior Citizens Certificate Program at such places as Edmonds House in Burnaby and Brock House in Vancouver.

III Directed Independent Study Courses

Twenty-nine different courses were available in this instructional mode during 1981-82. The total number of offerings of these courses was 68, nine more than in 1980-81. The total number of course enrollees was 2,183, an increase of 23 percent relative to 1980-81.

IV Special Audit Students

The number of people attending classes, day or evening, on- or off-campus, as special audit students during 1981-82 was 226, an increase of 14 (6.6%) over 1980-81.

V Certificate and Diploma Programs

Course enrollee data for the six certificate programs and the Extended Studies Diploma program for 1981-82 is presented in Table 4. It should be noted that this data does not represent additional course enrollees to those already reported here or to the overall university enrollment statistics. Students in these programs take courses

during the day or evening on-campus, off-campus and by correspondence.

The 2,158 course enrollees recorded in these programs during 1981-82 represent a 17% increase relative to 1980-81. The programs reflecting the greatest increase are Public History, Senior Citizens, and Health and Fitness Studies.

TABLE 1

Numbers of Courses and Course Enrollees for On-Campus Evening and Downtown, Off-Campus and Directed Independent Study Programs for the May 1 through April 30 Periods of 1981-82 and 1980-81.

Course Type	Reporting Period				Change in Number of Courses	Change in Number of Enrollees
