MEMORANDUM

To Senate

From Senate Committee on Undergraduate Studies

Subject Curriculum Changes - Business Administration & Economics

Date November 16, 1979

Action taken by the Senate Committee on Undergraduate Studies at its meeting of November 13th, 1979 gives rise to the following motion:

MOTION

That Senate approve and recommend approval to the Board, as set forth in S.79-123, the proposed change in requirements for a Major in the School of Business Administration and Economics.

Note - This proposal acknowledges that the needs of Business Administration and Economics students may be appropriately met through any one of several Mathematics or Philosophy courses or through a specific course in the School.

For Information

Under its delegated authority SCUS approved proposed course changes in the School of Business Administration and Economics as follows:

- ECON/COMM 332-3 Elementary Economic and Business Statistics I, prerequisite
ECON 353-5 Title, description
COMM 373-5 Title, description
COMM 436-5 Title, description, prerequisite"

p. 111 Econ 353-5 Change of title
and description

FROM: "Economic History of North America"

"An examination of common and
 contrasting features of economic
 development in Canada and the United
 States from settlement until the
 twentieth century. Emphasis will be
 placed upon the role of staple
 exports, the creation of social over-
 head capital, and the development of
 policies and institutions conducive
 to economic growth."

TO: "Economic History of Canada"

"Analysis of leading issues in
 Canadian Economic History. The
 Historical experience of other areas
 will be examined when useful
 contrasts can be made."

RATIONALE:

To conform to content of course as it is
 actually taught.

p. 116 COMM 373-5 Change of Title & Description

FROM: "Production Management"

"Factory location and layout; product design; production methods; materials handling, control of output, quality, cost, inventories, and production flow; time and motion study and methods of work analysis."

TO: "Operations Management"

"The management of operating systems including: allocation and scheduling of resources; control of costs, inventories, quality, and manpower; design of operating systems including location, layout and manpower; establishment of work methods and standards."

RATIONALE:

While it may seem that the change is cosmetic, this represents a more accurate representation of the kinds of issues we are attempting to cover in this course and would consequently send a more accurate signal out to students. The material treated in this course, particularly in B.C. environment, goes beyond a classification as strictly production issues.

p. 117 COMM 436-5 Change of Title & Description & Pre-requisites

FROM: "Quantitative Methods in Business"

"The application of quantitative methods in the analysis of administration, marketing inventory and production problems.

Prerequisites: ECON/ COMM 333-3. 60 credit hours."

TO: "Management Science"

"The application of Management Science techniques to the analysis of marketing, finance, production, or organizational and administrative problems.

Prerequisites: ECON/COMM 333-3;
COMM 373-5; 60 credit hours."

RATIONALE: The course applies Management
Science techniques to business problems.
