SIMON FRASER UNIVERSITY

S. 316  
SENATE

MEMORANDUM

To..... Mr. H. Evans,  
Secretary of Senate  
Subject..... Change in Course Requirements  
for B.Sc. (Kinesiology)

From..... B. L. Funt, Chairman,  
Interdisciplinary Committee on Kinesiology  
Date..... November 25, 1969

At its meeting of November 20th, the Interdisciplinary Committee on Kinesiology passed the following motion:

*Biological Sciences 204-3 be  
eliminated as a course requirement  
for the B.Sc. (Kinesiology) degree.*

This does not constitute a change in the total number of credit hours required for the degree. Nevertheless, it represents a change in the degree requirements and, as such, should be brought to Senate for consideration.
