

SIMON FRASER UNIVERSITY

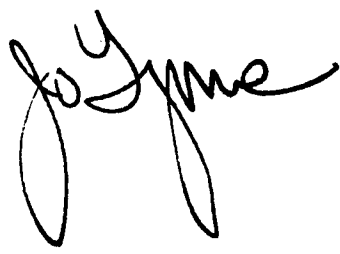

S. 86-49

MEMORANDUM

To..... Mr. W.R. Heath
..... Secretary of Senate
.....
Subject..... SCCS Annual Report

From..... Jo Lynne Hoegg, Chair,
..... Senate Committee on
..... Continuing Studies
.....
Date..... October 15, 1986

Enclosed are two statistical/informational reports on undergraduate extension credit courses and programs and credit-free activities of the Faculties and departments of the University for the period May 1, 1985, through April 30, 1986. These documents constitute the annual report of the Senate Committee on Continuing Studies.

Report on Undergraduate Extension Credit Courses May 1, 1985 -- April 30, 1986

Introduction

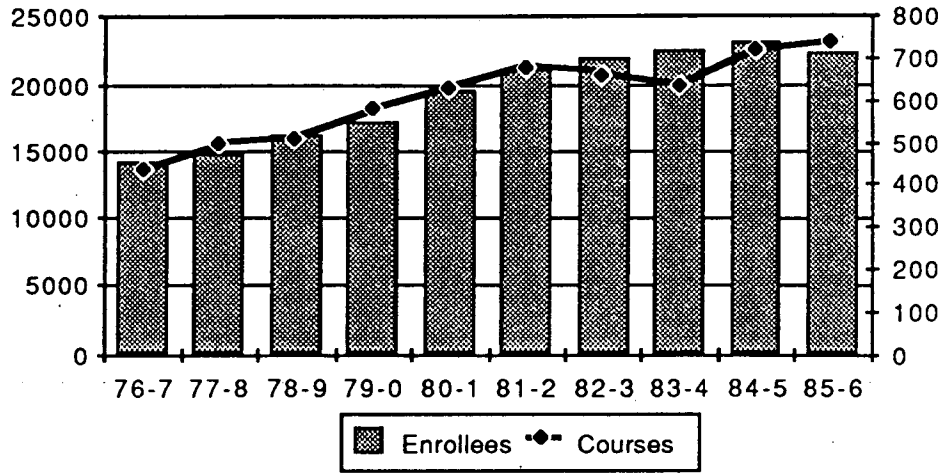

Undergraduate Extension Credit courses at Simon Fraser University are offered in a variety of settings and serve the educational needs of a varied student body. These students can be pursuing full and/or part-time study and can take their classes on campus in the evening, at several alternative sites including Simon Fraser University Downtown, at home through distance education courses, or through a combination of these means.

Specific programs of departments, Schools and Faculties included in this report are the On Campus Evening Program (CE), Intersession (IS) and Summer Session (SS), SFU Downtown (DT), Faculty of Education Interior Programs (ED), Distance Education courses (DISC), the Senior Citizens' Program (SR), the Prison Education Program (PEP), as well as the various Certificate and Diploma programs. In the period covered by this report, 742 credit courses were offered through these programs, with a total of 22,359 course enrollees and 2,426 FTE, 28% of the total University FTE for 1985-86.

Course Offerings and Enrollment

Enrollments in Extension Credit courses in 1985-86 were down 3% from the previous year, corresponding to the decrease in university-wide enrollments during the same period. As Chart 1 indicates, this is the first actual decrease in Extension Credit enrollments in ten years and hence warrants some attention in this report.

Chart 1
Extension Credit Enrollments
& Courses, 1976-1986

While this chart illustrates the steady growth of Extension enrollments with the expansion of course offerings, the correlation between enrollments and course offerings is actually much stronger than this chart indicates, the rise in course offerings since 1983-84 being largely accounted for by the addition of PEP which offers a relatively larger number of courses to a small and stable group of students. Charts 2 and 3 offer a clearer picture of the direct link between the number of courses offered and enrollments in the Campus Evening and the Downtown Programs.

Chart 2
C E Course Enrollees Compared
with Number of Courses Offered,
1976-1986

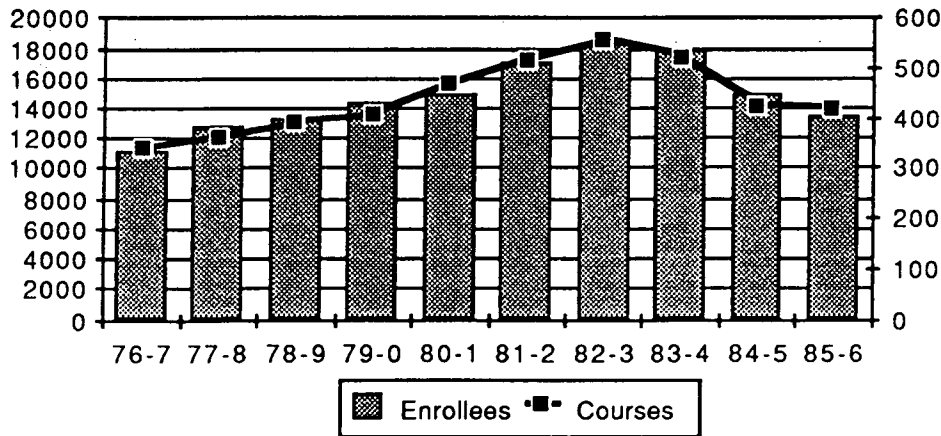

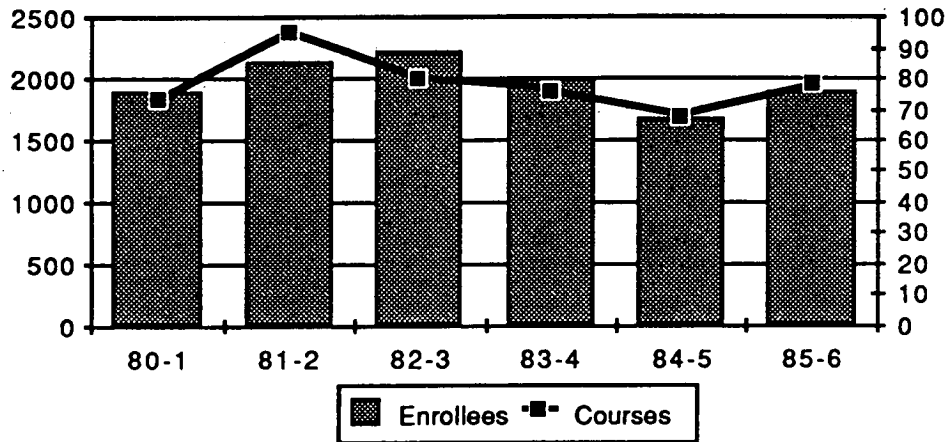

Chart 3
D T Course Enrollees
Compared with Number of
Courses Offered, 1980-1986

While some Extension Credit programs remain stable in terms of course offerings and hence enrollments (PEP, ED, SR), and while others are able to increase both (DISC), the decrease in courses offered in the Campus Evening program has had an impact on overall Extension Credit enrollment.

Enrollment, Course and FTE Distribution, 1985-86

Chart 4 below shows course and enrollment data for the three administrative divisions of Extension Credit programs -- On Campus (CE, IS,SS), Off Campus (DT, ED, SR, PEP), and Distance Education (DISC) -- and compares that data to 1984-85:

**Chart 4 - Courses and Course Enrollees
1985-86 and 1984-85**

Program	1984-85		1985-86		% change	
	Courses	Enroll	Courses	Enroll	Courses	Enroll
On Campus	428	14,849	420	13,480	(2)	(9)
Off Campus	182	3,345	200	3,611	9	8
DISC	113	4,963	122	5,268	8	6
TOTAL	723	23,157	742	22,359	3	(3)

Numbers in parentheses indicate decrease

As indicated above, the On Campus Extension Credit Program is the only one which experienced a decline in 1985-86, both in courses offered and in enrollments. The CE/IS/SS program makes up 60% of total Extension enrollment and 61% of the total annualized FTE.

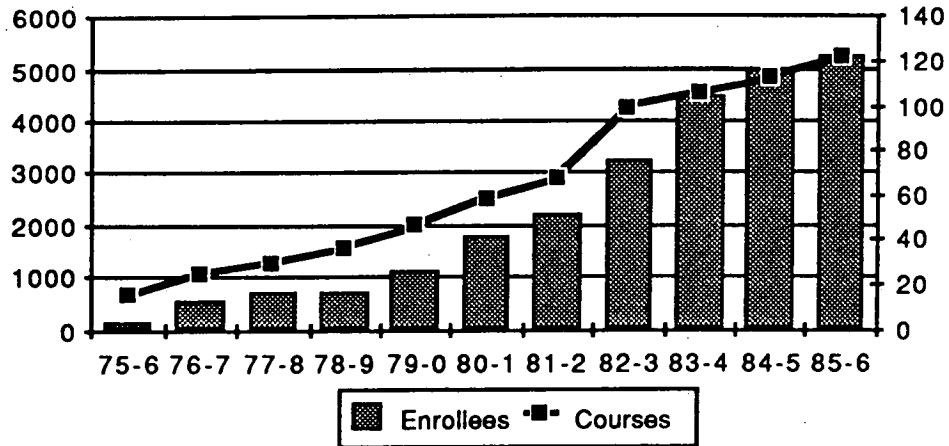

The Campus Evening, Downtown and Distance Education Programs each experienced a decline in enrollments/FTE in the 86-1 semester without any corresponding decrease in course offerings.

Distance Education Courses (DISC)

Fifty-seven undergraduate courses were available via distance education during 1985-86, an addition of five courses compared to last year. The total number of offerings of these courses was 122, nine more than in 1984-85. The total number of course enrollees was 5,268*, an increase of 6% relative to 1984-85. As is shown in Chart 5, the Distance Education Program has grown steadily since 1976, with enrollment keeping steady pace with the gradual development of DIS courses.

* Includes OUCBC students taking courses through Simon Fraser University.

Chart 5
Distance Education Course Enrollees
Compared With Number of Courses
Offered, 1975-1986

Certificate and Diploma Programs

The following table lists the numbers of students enrolled in Certificate and Diploma programs during 1985-86:

Senate Committee on Continuing Studies

Report on Credit-Free Activities

May 1, 1985 - April 30, 1986

This report presents the range of credit-free lectures, conferences, symposia, seminars, media productions, professional development courses and other programs reported by Faculties, Schools and departments of the University. As well, this report includes data on credit-free activities offered to faculty, students and staff by administrative units on campus. In all cases, the focus for credit-free activities at Simon Fraser University is on organizing educational opportunities for adults whose career, professional or personal intellectual interests cannot be served by the regular credit program.

During the 1985/86 reporting period enrolments in the 363 credit-free activities listed totalled 18,055.

Several well-established and continuing credit-free programs, each consisting of 5 to 6 courses, are now offered annually through the downtown School for Liberal and Professional Studies. These include the Foundation Program in Tourism Management, The New Enterprise Program, Arts Management and Administration, the Foundation Program in Management for Women, and Management for Non-profit and Voluntary Sector Organizations. New programs offered for the first time in 1985/86 are the Foundation program in Occupational Health and Safety by the School of Kinesiology, and Managing the Architectural Firm by the Faculty of Business Administration. In addition to these structured programs, a selection of established and new courses is provided semesterly, forming programs in several topical areas including the Human Performance Program and the Writing Program.

The Writing Program, involving the Departments of English and Communication, the Faculty of Education and the Canadian Studies Program, has grown in the past three years to approximately 25 to 30 courses per year. In 1985/86 the expertise associated with this program was used by the School of Engineering Science to design a credit communications course for engineering students. Faculty involved with the Writing Program have completed the first year of planning for a Canadian Centre for Studies in Publishing, working closely with the national publishing community and the federal Department of Communication.

University conferences, bringing together academics, professionals and interested members of the community, provide national and international recognition for the University. A number of departments organized conferences during 1985/86. Among these were the Centre for the Arts, "International Computer Music Conference 1985"; School of Criminology/The Northern Conference, "Northern Youth in Crisis: A Challenge for Justice"; Institute for the Humanities, "National Symposium on Environmental Ethics: Roles and Responsibilities in Environmental Conservation"; Latin American Studies, "International Conference on Liberation Theology"; and Natural Resources Management, "Coastal Engineering and Coastal Processes on the Canadian West Coast and the Beaufort Sea".

REPORT ON CREDIT-FREE ACTIVITIES

May 1, 1985 - April 30, 1986
