Moved by J. Osborne, seconded by B. Clayman

"that Senate approve and recommend approval to the Board of Governors, as set forth in S.94-38, approval of the Accessibility Policy for Students with Disabilities"

Concerns were expressed that the wording of the document was so generous and open-ended that it put into question the degree of commitment of the University to this issue and its ability to carry out all that is promised in the document. Discussion turned to the issue of resources. Senate was informed that universities are being compelled by Human Rights legislation to provide such services, and negotiations are currently underway with the Provincial Government to try to secure additional funding to deal with disabled issues and services. Brief discussion ensued with respect to the implementation of several of the clauses. It was noted that many of the services proposed under this policy are currently being provided on an ad hoc basis through the Office of Student Services.
