

Sm 1/8/66

-Case 1011

TO: SENATE
FROM: DEAN OF SCIENCE
SUBJECT: REQUEST FOR APPROVAL OF COURSES

PAPER 3C
July 22, 1966
File: 7-A-35

The following courses are recommended for approval by Senate. These courses, if approved, will be offered in the Fall 1966 Semester.

Biology 408-3, Biophysics

An introduction to the method of Biophysics through a study of contemporary problems (eg. genetics, vision, hearing, nerve and muscle activity).

Chem 201-3, Bonding, Structure and Stereochemistry

The structure of atoms and molecules; energy factors in the formation of ionic compounds; valence bond and molecular orbital treatment of covalent compounds; the stereochemistry of inorganic and simple organic molecules.

Prerequisites: - Chem 102-3
