

SIMON FRASER UNIVERSITY

**EDUCATION 482-4
DESIGNS FOR LEARNING: EDUCATIONAL USES OF COMPUTERS
(D1.00)**

Regular Summer Semester, 1992
(May 4 – July 31)
Thursdays, 1:00–4:50 p.m.
Location: MPX 8620F

Instructor: Dr. Evelyn Ng
Office: MPX 8676
Phone: 291-3642

PREREQUISITE: EDUC 401/402.

DESCRIPTION

The course is an introduction to the roles and applications of computers in education, and to problems of computer uses in the classroom. This session is suitable to teachers who are novice computer users. The following topics are covered:

- Use of computers in the classroom: concerns and skills
- Use of applications software
- Use of instructional software
- Integration of software into the curriculum
- Programming applications in the curriculum
- Electronic communications in education

COURSE ACTIVITIES

Course activities will consist of lectures and discussions, demonstrations, readings, team projects and laboratory work.

EVALUATION

A term paper on selected computer applications in the classroom.

A class presentation evaluating a piece of software, demonstrating its uses in the classroom or an educational setting.

Short tests related to readings, discussions and demonstrations.

Laboratory exercises demonstrating computer operating skills.
