

**EDUCATION 475-4**

**DESIGNS FOR LEARNING: MATHEMATICS**

**FALL, 1980**

**Instructor in Kamloops: Dr. Sandy Dawson**

**KAMLOOPS & VERNON  
CAMPUS**

**Instructor in Vernon: Prof. John Trivett**

**Teachers of Arithmetic and Mathematic lessons want to be certain  
that all students:**

- master the understandings and skills of computation**
- enjoy and work hard at the necessary activities**
- meet challenges and problems of increasing difficulty  
that they can all succeed at**
- use what they learn in the study of other school subjects  
and in the mathematics of their future grade level**

**This course will use a variety of materials and teaching strategies  
to accomplish those objectives. It will relate closely to the B.C.  
Curriculum Guide.**
