1. Approval of the Agenda

The agenda was approved as distributed.

2. Minutes of the Open Session on February 4, 2013

The minutes of the open session on February 4, 2013 were approved as distributed.

3. Business Arising from the Minutes

Senate was informed that the change in S.13-35 in the vector for HSCI 442 includes the number of contact hours and was considered and approved at the Faculty level prior to submission to SCUS.

Senate was informed that the apparent budget overspending reported in S.13-17 was due to endowed awards and raised funds run through the Financial Aid accounts and this discrepancy will be fixed for future reports.

4. Report of the Chair

The Chair reported that the Minister of Advanced Education, Innovation and Technology, John Yap, has stepped down. The Minister's replacement is Ralph Sultan.

The Chair reported on the release of a Green Paper on Quality Assurance by the Ministry of Advanced Education. The Chair reported that the research universities would be submitting feedback through the Research Universities' Council of British Columbia (RUCBC).

The Chair reported that the B.C. Provincial budget recently came down. The main concern for the University is the \$50 million cut to post-secondary education over three years. The research universities continue to push the opportunity agenda and the need for new investment to grow post-secondary spaces, to provide better access for students, and a more strategic approach and commitment to research.

The Chair reported on the one-year anniversary of the strategic vision and the opportunity for the University community to participate in on-line and in-person consultation on community engagement.

5. Question Period

No questions were submitted for the March 2013 meeting.

6. Reports of Committees**A) Senate Committee on Enrolment Management and Planning****i) Enrolment Plan 2013/2014; Undergraduate Admission Targets for 2013/2014 S.13-39****Motion 1**

Moved by J. Driver, seconded by T. Leacock

“That Senate approve and recommend to the Board of Governors the 2013/2014 Enrollment Plan attached as Appendix A to document titled *For SENATE March 4, 2013.*”

A question was asked why the intake target for domestic students for the Faculty of Education was so far below the actual total intake of new students. Senate was informed that the target is for

external student intake; however, the Faculty of Education accepts students both externally and through internal transfers. The actual intake will exceed the target when there are large numbers of internal transfer students.

Clarification was requested regarding the acronym AVED. Senate was informed that the acronym refers to the Ministry of Advanced Education.

A question was asked regarding the calibration of international student enrolment targets in terms of GPA cutoff. Senate was informed that the international enrolment targets were over target due to the lack of effective admission controls. The University wants to ensure that the intake of international students is adequate to ensure that the number of international students does not decrease significantly when the currently enrolled students graduate.

A question was asked if the flat Full-Time Equivalent (FTE) enrolment projection to 2020 was an indication that the number of Surrey positions is no longer expected to double. Senate was informed that the University is continuing to press the Ministry of Advanced Education for a commitment to expand the Surrey campus as soon as possible.

A question was asked whether the University needs an alternative metric for costs that do not behave according to FTE. Senate was informed that FTE is the metric used to report to the Ministry of Advanced Education and that academic planning is most easily done in terms of FTE students. Enrolment headcount information is available in the Enrollment Dashboard on the IRP website (<http://www.sfu.ca/irp/enrollments/EnrollmentDashboard.html>).

A question was asked whether the targets reflect the actual costs required to run the Faculty of Environment at the existing rate. Senate was informed that SCEMP makes recommendations on student enrolment based on input from all the faculties. The weight accorded to an FTE has an impact on budget allocation.

A question was asked whether GPA cutoffs for admission by faculty could be included in the report as had been done in the past. Senate was informed that the admission GPA cutoffs would be included in future.

Question was called and a vote taken.

MOTION CARRIED

Motion 2

Moved by J. Driver, seconded by S. Black

“That Senate approve and recommend to the Board of Governors the 2013/2014 DOMESTIC undergraduate admission targets to each Faculty, by semester and basis of admission category as indicated in Table C1 in Appendix C.”

Question was called and a vote taken.

MOTION CARRIED

Motion 3

Moved by J. Driver, seconded by S. Black

“That Senate approve and recommend to the Board of Governors the 2013/2014 INTERNATIONAL undergraduate admission targets to each Faculty, by semester and basis of admission category as indicated in Table C2 in Appendix C.”

A question was asked regarding the high percentage of incoming international students from Fraser International College. Additional questions were asked on this topic regarding the Beedie School of Business and the lack of recruiting from a broad range of countries of origin. Senate was informed that the high percentage of international students in the Beedie School of Business is a result of the agreement between SFU and FIC and that Business is a popular program among international students in general. Senate was informed that FIC has similar demographics to SFU in terms of countries of origin.

Question was called and a vote taken.

MOTION CARRIED

B) Senate Committee on Undergraduate Studies (SCUS)

i) Curriculum Revisions — Faculty of Arts and Social Sciences (S.13-41)
