

SENATE SUMMARY

MEETING OF FEBRUARY 3, 2014

1. **Report of the Chair**

The Chair reported that on January 8th SFU hosted the national funding announcement for the Canadian Foundation for Innovation's John R. Evans Leaders Fund. The announcement included six SFU projects, which received over \$1 million.

The Chair reported on his recent mission to India with the Vice President, Research, and the Vice President, External Relations. Agreements were reached with IIT Bombay (solar energy and fuel cell research); Indian Oil Corporation (fuel cell research); and with the Bombay Stock Exchange Institute and Ryerson University (international incubator-accelerator program for student start-ups). Meetings were held with: Jawaharlal Nehru University (linguistics research); Tata Institute of Social Sciences (social and environmental policy); Development Alternatives Group; TERI University; organizers of the Jaipur Literature Festival and Indian Summer Festival; the Director General of the Indian Council for Cultural Relations; and Lady Shri Ram College (university engagement).

The Chair reported on the launch of the Canadian International Institute for Extractive Industries and Development, a collaboration between SFU, UBC and École Polytechnique de Montréal. The institute is funded by a \$25 million grant from the Federal Department of Foreign Affairs Trade and Development and \$15 million from coalition partners. The mission of the institute will be to assist governments in developing countries to manage their natural resources in a way that generates long-term livelihoods, supports healthy communities, and protects environmental values.

The Chair reported on research grant successes. Elliot Goldner of Health Sciences has received a seed grant of \$250,000 from Grand Challenges Canada for a feasibility study in northern Vietnam to train primary health care providers in mental health delivery. Health Sciences PhD candidate Mark Labrecque has received a \$40,000 grant from Prostate Cancer Canada for his research into the genetic composition of prostate cancer cells. Semios, an emerging leader in the development of sustainable pest management technology and a client of SFU's Venture Labs, received \$285,000 as winner in the sustainability category of Verizon Powerful Answers Award.

Finally, the Chair reported on the opening of the Trottier Studio for Innovative Science Education and the announcement of plans for the Trottier Observatory and Courtyard, a \$4.4 million project made possible by the support of the Trottier Family Foundation headed by Lorne and Louise Trottier.

2. Task Force on Flexible Education (TFFE) (S.14-27)
