4. Field Schools (Appendix A)

International Services for Students reported the following on Field Schools for 2015.

- 3.48 Field School activity decreased significantly as the result of fewer program offerings. In 2015, four programs were operated with a total of 54 students (as compared with 2014's seven programs and 102 students). Some departments did not offer their regularly-scheduled field schools due to financial or other reasons. However, numerous new programs are in development; of the four programs offered in 2015, two were new programs. Details of 2015 activity can be found in the following document attached:

SCIA Report C: SFU Field School Statistics

5. Student Exchange

- **Outbound exchange activity increased by 15% in 2015 over 2014** (290 terms completed in 2015, up from 252 in 2014). Details of 2015 activity can be found in the following documents attached:
 - *SCIA Report A: SFU Formal Exchange Program and Study Abroad Activity by Year*
 - *SCIA Report B: Formal Exchange Program Summary by Institution*

- **Inbound exchange activity remained at a stable level** (269 terms completed in 2015, up from 260 in 2014). This is the result of intentional efforts towards equal reciprocity with our institutional partners. There is higher demand for exchanges to SFU than from SFU. Inbound activity must be closely managed as demand from SFU students continues to grow. Details of 2015 activity can be found in the following documents attached:
 - *SCIA Report A: SFU Formal Exchange Program and Study Abroad Activity by Year*
 - *SCIA Report B: SFU Formal Exchange Program Summary by Institution*

- **A new report for 2015 SCIA demonstrates the most active countries for SFU's Study Abroad Programs.** The five countries with whom SFU sent and received the most students in 2015 are France, England, Australia, Hong Kong and the Netherlands. Details of 2015 activity can be found in the following document attached:
 - *SCIA Report D: Total Study Abroad Program Participation by Country*

6. International Co-op Program (information from co-op) (Appendix B)

In 2015, in the International Co-op Program there were 314 work practicums over 27 countries. This is an increase from previous years (277). Contributing factors for this increase include the efforts done in the area of the Silicon Valley and the increase enrolment numbers in Engineering as Co-op is mandatory for their academic program. Top countries of placement were China, South Korea and USA consistently across all three semester in 2015.
