Rationale:

- CMNS261 is only offered via CODE, and the content can be accommodated in CMNS262(202) and CMNS 260(201).
- 2 out of 3 format is causing bottlenecks in enrollments.
- CMNS 201 and 202 will become 'trunk courses' in the second year. Renumbering them as 201 and 202 will move them to the top of the list of CMNS 200-level course in the Calendar – which will encourage students to take them both earlier in their programs.
- We are moving to a team-teaching format for second year methods, and this new streamlined model will enable greater co-ordination in methods instruction, and reduce overlap between the two courses.

Rationale:

- CMNS261 is only offered via CODE, and the content can be accommodated in CMNS262(202) and CMNS 260(201).
- 2 out of 3 format is causing bottlenecks in enrollments.
- CMNS 201 and 202 will become 'trunk courses' in the second year. Renumbering them as 201 and 202 will move them to the top of the list of CMNS 200-level course in the Calendar - which will encourage students to take them both earlier in their programs.
- We are moving to a team-teaching format for second year methods, and this new streamlined model will enable greater co-ordination in methods instruction, and reduce overlap between the two courses.
