This course is an extension of BUEC 232. It develops and applies the quantitative models that are most directly relevant to business decisions. Beginning with material on multiple regression and forecasting modeling, the course moves on to decision analysis, business simulation, quality control, and an introduction to optimization. Prerequisite: MATH 150, MATH 151, MATH 154, or 157; BUEC 232 or STAT 270; 60 units. Quantitative.

EFFECTIVE TERM AND YEAR FOR CHANGES

Fall, Spring, Summer and year (please enter in textbox)

RATIONALE (must be included)

Previously BUEC 232 and STAT 270 were coded as prerequisites on BUS 336 as we had language in the calendar indicating that either would be accepted in the Business program. However, this language has been removed from the calendar as it was determined to be advisory and therefore not appropriate for the calendar.

Since prerequisites coded on the course need to match those listed in the calendar, STAT 270 has been removed as a prerequisite for BUS 336 even though we have considered them equivalent and allowed STAT 270 as a prerequisite in the past. This language change in the prerequisite would make official what we have been doing.

BUS 483 - Introduction to Employment Law For Business (3)

Provides a solid foundation for students in understanding the legal obligations, statutes, and limitations within provincial legislation that govern employment relationships in non-union contexts. Additionally, will explore the legal aspects of matters of particular importance for managers faced with human resource policy decisions. Prerequisite: ~~BUS 381~~ BUS 393, BUS 360W and 60 units.

EFFECTIVE TERM AND YEAR FOR CHANGES

Fall, Spring, Summer and year (please enter in textbox)

2017 SUMMER

RATIONALE (must be included)

BUS 393 (Commercial Law) is a more relevant prerequisite for this course as it provides a general background before students delve into the more specific aspects of employment law. Students who have taken BUS 393 prior to BUS 483 in the past have demonstrated a clearer understanding of the concepts needed for success in BUS 483.

Calendar Entry Change**Bachelor of Business Administration – Business Major, Business Honours**

Rationale for change:

To create greater accessibility to opportunities such as student exchanges and study abroad, additional areas of concentrations, minors in other faculties, and certificates. Within the Business Major and Honours requirements, non-Business electives will now be reduced in order to allow more flexibility in programming, while still requiring students to take courses outside of business.

Effective term and year:

Fall 2017

The following program(s) will be affected by these changes:

Business Major, Business Honours, Business Honours (with term at Segal).

Calendar Change: “to” and “from” sections are not required. All deletions should be crossed out as follows: ~~sample~~. All additions should be marked by a **bold**.

Program Requirements

Students complete at least 120 units, within which:

Students must complete a minimum of either ~~15-12~~ courses (each worth three or more units) or **45-36** units, outside the Beedie School of Business*. Within the ~~15-12~~ courses, or **45-36** units, students must also meet the University requirements for breadth — 6 units labelled as Breadth-Humanities, 6 units labelled as Breadth-Science, and 6 units labelled as Breadth-Social Science, and 6 units of additional breadth that may or may not be labelled.

*Courses not labelled as BUS or BUEC that are completed as part of the lower division requirements may be used toward the ~~15-12~~ courses or **45-36** units outside business.
