RE: Course Changes under Delegated Authority

DATE: August 10, 2020, 2020

Dear Jeff,

Please include the attached curricular items on the agenda of the next SGSC meeting. As these are minor changes which arrived after the last FASSGSC meeting, I have approved them by delegated authority:

- PSYC 825 description change
- PSYC 830 description change
- PSYC 831 prerequisite change

~~Also, I have approved a request for PSYC 809, "Advanced Topics in Applied Psychology," to be reinstated, effective Spring 2021, and here forward that request to you for consideration. This course was temporarily withdrawn by Senate effective Fall 2019 because it had not been scheduled for several years prior. The Clinical Psychology Graduate Program wishes to now reinstate the course number in order to offer a special topics course on telepsychology practice. Given the current situation with COVID-19 and the physical distancing restrictions staff, students, and faculty are subject to, offering a course in telepsychology practice is both timely and provides trainees in the Clinical Psychology Program an option for fulfilling the program requirements and the practical component of their required training. Please include this item too on the agenda for the next SGSC meeting~~.

Best wishes,

Sean Zwagerman

Associate Dean, Faculty of Arts and Social Sciences

Description

From:
This course is an elective in the MA program. Students are placed with an arts organization in order to carry out a specific project of finite length. The student's labor time in the practicum should total approximately 120 hours, to be carried out over the course of a term. Projects are initiated by the student in consultation with the supervisor at the organization and the MA program supervisor. Projects can involve research, writing, organizing events, curating exhibitions and programs, public relations, media production, archiving, and related activities. The student submits a proposal that indicates the project's purpose, schedule, plans for documenting and reporting, and planned outcome. Final outcomes will vary depending on the placement. The MA program coordinator and the supervisor at the organization approve the project. In some cases, the project must be approved by the Ethics Review Board. SFU's code of conduct and academic dishonesty policies apply to students while on practicum. The MA program coordinator assigns a grade in consultation with the supervisor at the organization. Students with credit for FPA 827 may not take this course for further credit.

MEMORANDUM

ATTENTION SGSC Members

DATE November 3, 2020

FROM Jeff Derksen, Dean and Associate Provost, Graduate and Postdoctoral Studies

RE: Temporary and permanent withdrawal of courses

A policy was approved in 2001 (S.01-24) regarding the temporary and permanent withdrawal of graduate courses. The purpose of this policy is to keep the SFU calendar updated so that it provides accurate information to prospective and current students. The Office Graduate and Postdoctoral Studies is required to send a list of graduate courses, which have not been taught in the previous four academic years (or more), to the academic units for review before the courses are temporarily or deleted from the calendar. This list of courses was sent to the academic units in Fall 2020 for review.

The Dean and Associate Provost, Graduate and Postdoctoral Studies, is required to present to the Senate Graduate Studies Committee a list of the courses to be withdrawn for approval.

Motion:
"to approve the list of courses to be temporarily withdrawn and deleted effective **Summer 2021**"
