RE	Course Change – CMPT 727
DATE	July 2 nd , 2021

Please find attached the Graduate Course Change for CMPT 727. We would like to change the title and description of the to be effective as of Summer 2022.

Summary and Rationale:

After the experience teaching two offerings of this course, the instructor would like to slightly shift its focus to better suit students' interests and background. In particular, they plan to increase the emphasis on mathematical foundations, as our existing machine learning curriculum lacks the foundations required for advanced methods. They are proposing this description change following discussion with the AI courses planning group led by Angel Chang. The current entry sets out breadth and other requirements for programs which, again, is confusing to students.

If you have any questions or concerns, please let me know.

~~MOTION: To approve changes to the SCA MFA Program as follows:~~

- ~~- A change in the MFA calendar description and program requirements to reflect the onboarding of two additional, non-credit Professional Practices Seminars, CA 890 and CA 891, that were created in connection with SCA's new PhD program.~~

The following additional course and program changes were made via electronic vote on June 2, 2021:

MOTION: To approve changes to the SCA MA Program as follows:

- A change in the calendar descriptions for CA 821, 824 and 826, *CA 827 HB*

~~MOTION: To approve changes to the SCA PhD Program as follows:~~

- ~~- The addition of CA 828, a new course, to the list of PhD electives.~~

The rationale for these changes can be found in the attached documents. I would be grateful if you could place these items on the agenda of the June 15 meeting of the Faculty of Communication, Art, and Technology's Graduate Studies Committee. I am to provide additional context at that time.

Description This core course is taken in the first term of the MA program. It develops thinking across the media arts in a comparative perspective that synthesizes the historical and theoretical approaches of art history, cinema studies, performance studies, and computer-based media studies. It establishes bases for understanding the relationships among the visual arts, visual culture, performing arts, and art forms that incorporate reproducible and digital media; these include cinema, video, photography, and computer-based media. In addition to this, the course investigates some of the useful emergent methods for making comparisons among media, across history, and across cultures. While other courses in the MA in Contemporary Arts focus on the distinctive nature of specific media arts, this course considers what properties cross different forms of media. Description This course is an elective in the MA program. In it we examine what are understood as the arts of the moving image: these include film, video, and other time based audiovisual media. We will begin by grounding our objects of study, i.e. specific works and practices, in cinema studies and survey emerging approaches in cinema studies, relating these developments to the longer history of the discipline. Investigating cinema intermedially, we will keep in mind the art forms that informed it historically, including theater, public spectacles, photography, painting, music, sound recording. Then the course will examine how the practice, aesthetics, and reception change when cinema moves to television, both move to digital formats, and all these platforms move to handheld and social media. We will investigate medium specificity in the moving-image arts in light of what is termed "media convergence." We will consider what new forms emerge when moving images shift from the institution of cinema to other contexts such as museums and online sites. The course includes three weeks topics of interest that arise in the field, such as new national cinemas, new approaches to documentary, cognitive theory and neuroscience, etc.	Description Examines what are understood as the arts of the moving image: film, video, and other time based audiovisual media. MEMORANDUM

ATTENTION Senate Graduate Studies Committee **DATE** September 7, 2021
FROM Krista Gerlich-Fitzgerald,
Associate Director, Graduate and
Postdoctoral Studies
RE: WDA Course Changes

The following course changes have been approved by Graduate and Postdoctoral Studies and are forwarded to the Senate Graduate Studies Committee for approval. These curriculum items should be effective for Summer 2022.

All Western Dean's Agreement courses should be changed from In Progress/Complete to Satisfactory/Unsatisfactory. Currently, if a student does not receive a minimum B grade, they do not obtain credit for the course. The IP grade is not an appropriate notation to indicate that the course has not been completed as per the requirements of the agreement. This change better reflects the possible course outcomes.

Course Changes:

- WDA 800 - Western Dean's Agreement
- WDA 801 - Western Dean's Agreement
- WDA 802 - Western Dean's Agreement
- WDA 803 - Western Dean's Agreement
- WDA 804 - Western Dean's Agreement
- WDA 805 - Western Dean's Agreement
- WDA 806 - Western Dean's Agreement

Sincerely,

Krista Gerlich-Fitzgerald
Associate Director, Graduate and Postdoctoral Studies
