MEMORANDUM

ATTENTION Senate **DATE** February 15, 2024
FROM Mary O'Brien,
Chair of Senate Graduate Studies
Committee (SGSC)
RE: Program Changes

For information:

Acting under delegated authority at its meeting of February 6, 2024, SGSC approved the following curriculum item, effective **Fall 2024**:

Faculty of Arts and Social Sciences
Department of Linguistics

- 1) Program Change: Linguistics MA

Memo

Attention Mary O'Brien, Dean of Graduate Studies

From Kate. Slaney, Associate Dean, Graduate and Postdoctoral Studies, FASS

cc

Subject Items for SGSC

Date October 15, 2023

Dear Mary,

The FASS GSC met for our semesterly meeting on October 10, 2023. Due to disruptions from the TSSU labour dispute, over half our committee members did not attend the meeting (either in person or via the Zoom option that was provided). As such, we did not have quorum and were not able to vote on items that were submitted for approval from four FASS graduate programs. In order to ensure that these items may be considered by the Senate GSC in a timely manner and because none were likely to have met with significant resistance, I am approving the following course and calendar changes:

- ~~1. Department of Gerontology – Calendar Course Change
Course description change for GERO 803~~
2. Department of Linguistics – Calendar Course Change
Eliminating three required courses (LING 800, 801, and 851) for the MA Linguistics program to add flexibility to two recently added program streams
- ~~3. Department of Psychology – Calendar Course Change
a) Add PSYC 809 Advanced Topics in Applied Psychology (Course Topic: Pediatric Neuropsychology) as an option for the two-area course requirement for the Clinical Neuropsychology track students
b) Change the pre-requisite course requirements of PSYC 809 – Advanced Topics in Applied Psychology~~
- ~~4. School of International Studies – Program Deletion – Latin American Studies Graduate (LAS) Certificate~~

~~The LAS GC has not received students since Fall 2020 and there are no active students in the program~~

Calendar and course change forms attached.

Please add these items for consideration at the next SGSC meeting.

Thank you.

Sincerely,

Kathleen (Kate) Slaney
Associate Dean, Graduate and Postdoctoral Studies,
Faculty of Arts and Social Sciences
Simon Fraser University

/nf

To: FASS Graduate Studies Committee
From: Linguistics GSC
Re: Minor Linguistics MA program change
Date: September 14th, 2023

The following program changes have been approved by the Department of Linguistics and are forwarded to the FASS Graduate Studies Committee for approval. These curriculum items should be effective for Fall 2024. Please include them on the next FASS GSC agenda.

We intend to add flexibility to the streams by not making LING 800, 801, and 851 required. That is, we are acknowledging that there are many potential areas of linguistics where students may specialize in, and so we are adding flexibility for them to complete the MA.

Linguistics Graduate Studies Chair, Henny Yeung

Calendar Entry Change for Linguistics Master of Arts

<p>Summary of change: Currently, there are three courses required for the MA, but we are going to make these courses optional instead of required.</p>
<p>Rationale for change: The context of these changes is that our MA program recently introduced project- and course-based streams in addition to our (previous) thesis-based stream in Fall 2023. First, we wish to provide more flexibility in the scheduling of courses. With current course requirements, we will struggle to mount enough unique graduate courses to accommodate multiple cohorts in project- and course-based streams. These changes would allow all faculty to contribute more equally to graduate training. Second, we also wish to increase flexibility for graduate student training in our MA program, as our students now have more diverse post-degree career goals. For example, some students may wish to concentrate on preparation for quantitative careers (data science / tech careers, or PhD study in applied programs), while other students may want to focus on writing and analytic training in other courses (for language policy careers, or PhD study in theoretical linguistics programs). All admitted MA students are expected to have foundational undergraduate coursework in linguistics, and so these changes will mean that students are given a choice about whether to deepen their prior training, or instead, develop breadth. To ensure that MA students (in all streams) therefore choose courses that will meet their professional goals, 5 credits of professional development (to develop a clear plan post-degree) are still required, and all MA students will continue to be assigned a faculty advisor who can ensure that students select courses to gain strong training within our field that is still, nevertheless, suited to their individual career aspirations.</p>
<p>Effective term and year: Fall 2024</p>
<p>Will this change impact current students? If yes, what is the plan for current students? No</p>

FROM	TO
