MEMORANDUM

To Senate

From N.R. Reilly, Chairman
Senate Committee on
Undergraduate Studies

Subject Prerequisite change for CHEM 458-3 Date 16 October 1978

Action taken by the Senate Committee on Undergraduate Studies at its meeting of Tuesday, October 10th, 1978 gives rise to the following motion:

MOTION

"That Senate approve and recommend approval to the Board of Governors, as set forth in S78-119, the change in prerequisite for CHEM 458-3."

SIMON FRASER UNIVERSITY

SC4578-45

MEMORANDUM

To..... H.M. Evans, Secretary of SCUS.....

From..... J.M. Webster.....

Dean of Science

Subject..... Proposed Change in Prerequisite
CHEMISTRY 458-3

Date..... 1978 10 03

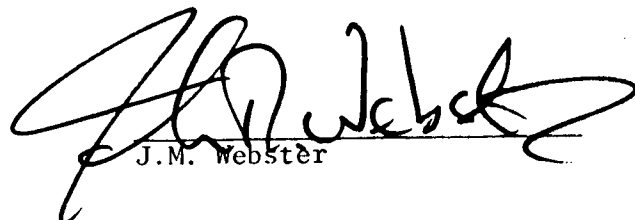

The Faculty of Science, at its meeting of 1978 09 28, passed the following motion:

"That the Faculty of Science moves that the prerequisite, as stated in the Calendar, for CHEM 458-3 be changed from CHEM 261-3 and CHEM 357-3 to CHEM 261-3 and CHEM 356-2 and moves that this change goes before the Senate Committee on Undergraduate Studies for consideration and approval."

RATIONALE

CHEM 357 was added as prerequisite a few years ago to assure adequate knowledge OF NMR spectroscopy. This topic, which constitutes only a small portion of CHEM 458, is now introduced in CHEM 252 and CHEM 356.

The proposed relaxation in the prerequisite would make this (rarely offered) course available to a larger number of students especially from Biochemistry and Chemical Physics, who could benefit from a rigorous discussion of physical chemistry principles and mechanistic studies as applied to organic reactions.
