3.3 continued

more immediate and personal response to the individual financial situations of applicants. The procedures used to process bursary applications include personal interviews between the student and the Financial Aid Officer. The terms of reference for bursaries are discussed in section 4.3 of this report.

4. Terms of Reference and Summary of disbursements made under programmes sponsored or administered by Simon Fraser University.

4.1 Simon Fraser University Open Scholarships

University Scholarships ranging in amounts up to \$300.00 are available to Simon Fraser University undergraduates on a competitive basis. These scholarships are open to any student in any Faculty who has attended at least one semester at Simon Fraser University.

These scholarships are awarded on the basis of scholastic achievement measured in terms of the Fine Grade Point Scale. This scale provides a mechanism to weight pluses and minuses awarded in the letter grade system. The following equivalents were used during 1973.

Letter grade	Fine Grade Point
A+	4.33
A	4.00
A-	3.66
B+	3.33
B	3.00
B-	2.66
C+	2.33
C	2.00
C-	1.66
D	1.00
F, N, DEF	0.00

The Grade Point Average used in Scholarship consideration is calculated on the most recent three semesters of attendance, or 36 semester hours. The averages for candidates who have not yet completed 36 semester hours are calculated on the number of hours which have been completed.

Normally to be eligible for University sponsored scholarships, the academic standing under consideration should have been attained in a full-time programme of 12 semester hours or more. The candidate should also be registered in 12 or more semester hours in the semester in which the scholarship is given.

4.1 continued

Normally, scholarships are awarded for one semester. In those cases where a scholarship extends over a period of more than one semester, payment of the second and/or third portion of the scholarship is conditional upon the student obtaining a satisfactory standing in the immediately preceding semester.

While the student may have the honor of winning more than one scholarship during the semester, the Senate Committee will, in most cases, grant the monetary value of the second scholarship to the next qualified student.

The winner of a scholarship, if he or she so desires, may retain the honor of the award, but decline the monetary value. Any funds thus made available will be used for additional awards.

The following tables represent the distribution, in 1973, of Simon Fraser University Open Scholarships and Scholarships donated by individuals or organizations external to Simon Fraser University, but administered by Simon Fraser University.

For Information: Supplements are amounts awarded to students receiving privately donated scholarships and who would otherwise qualify for a Simon Fraser University Scholarship of higher value.

Pro-rations are the reduced value of scholarships earned by students enrolled in less than full course loads during the qualifying semesters.

For the summary relating to Simon Fraser Open Scholarships for the 1973 - 1 and 1973 - 3 semesters, the Grade Point Average Range for all faculties is the same.

4.2 Simon Fraser University Entrance Scholarships

Simon Fraser University offers a number of scholarships on a competitive basis to students of high academic ability and who are registering in a course of studies at Simon Fraser University for the first time. Entrance Scholarships are divided between four major categories; Secondary School Entrance, Gordon Shrum Entrance, Regional College Entrance, and University Transfer.

Secondary School Entrance Scholarships range in value up to \$250.00, and are available for competition to graduated high school students and to students being admitted as early entrants from grade eleven.

A maximum of thirty Gordon Shrum Entrance Scholarships valued at \$300.00 each are offered annually to students entering Simon Fraser University from British Columbia Secondary Schools. These scholarships are offered to students who have obtained the highest standings in the B.C. Government Grade 12 Scholarship examinations.

Regional College Entrance Scholarships range in value up to \$300.00 and are available for competition to students entering Simon Fraser University from Regional, Junior or Community Colleges.

University Transfer Scholarships ranging in value up to \$300.00 are available for competition to students entering Simon Fraser University from recognized degree-granting institutions.

4.2 continued

Candidates for Entrance Scholarships, other than Gordon M. Shrum Scholarships, are normally evaluated according to their academic achievement at their most recent institution of attendance.

All other regulations governing scholarships discussed in section 4.1 are in force for Entrance Scholarships.

4.3 Simon Fraser University Open Bursaries

Simon Fraser University offers a large number of non-repayable grants to students demonstrating financial need and whose academic record is satisfactory. These bursaries are intended to provide students with a supplemental source of income, which, when added to other major sources of income will provide the funds required to defray Educational Expenses. The value of these grants range to \$225.00 per semester.

All undergraduate students are eligible for consideration provided that they have achieved a most recent semester grade point average of 2.0 or greater. Students who are attending Simon Fraser University for the first time are also eligible.

Candidates are required to complete an application form detailing their financial situation. Information concerning the expense and income for each candidate is carefully evaluated. A large number of applicants are required to present themselves for an interview in the Financial Aid Office to provide supplementary information or to present a more detailed summary of their financial situation.

The majority of bursary funds expended during each semester is disbursed on the first day of classes with a smaller amount being disbursed during the course of the semester. The following table reflects the amount of money disbursed during 1973, through the Simon Fraser Open

4.3 continued

Bursary Plan and bursaries administered by Simon Fraser University and sponsored by individuals or organizations external to Simon Fraser University.

The figures listed under disbursements reflect the funds initially expended. Approximately 7% of all monies expended are returned to the fund due to pro-rations and student withdrawal.

Students must register in a minimum 12 semester hours in order to receive the full value of the amount awarded. Awards made to students who register in less than 12 hours will be reduced in a proportionate basis (e.g. a \$150.00 bursary will be reduced to \$75.00 if the student registers in 6 hours which is 6/12 or 1/2 full time enrolment).

4.9 British Columbia Government Scholastic Awards

The Senate Committee on Scholarships, Awards and Bursaries awarded B.C. Government Scholarship to the top 17% of the full-time student body. The amount of the scholarships varied from 1/3 to 3/4 of fees depending on the student semester fine grade point average. The award could be applied to the student's next full semester as long as it fell within nine months of the date awarded.

4.9 continued

The Government of British Columbia changed the character and name of these scholarships effective April 1, 1973. The scholarships have been renamed Government of British Columbia Scholastic Awards.

The Provincial Government will give an award of \$100.00 to each of a number of the top ranking eligible students attending Simon Fraser University on the basis of their standing upon completion of a full programme of undergraduate studies extending through one semester. These awards are open for competition at the end of each semester and may be granted up to a maximum of 17% of the number of students registered in a minimum of 15 semester hours.

To be eligible for these awards a student must be a Canadian citizen who has resided in the province of British Columbia for not less than twelve consecutive months preceding the first day of the month in which he commenced the qualifying period of post-secondary studies, or he may be one who has been a landed immigrant for at least twelve consecutive months and who fulfils the above criteria of residence in the province of British Columbia. These Scholastic Awards will not be granted to students whose average standing in all courses of full programme in the qualifying session is less than 2.69.

To be eligible for one of these awards each candidate will be required to submit an application on a form available from the Financial Aid Office. The application form must be completed in full and may be subject to verification. Applications for these Scholastic Awards must be in the hands of the Financial Aid Officer before the last day of lectures of each semester. The Award will be given to a successful candidate in the form of a personal cheque.

The following summary represents the British Columbia Scholastic Awards granted by Simon Fraser University during 1973.

1973 - 2	162	\$100.00	16,200.00

Year Total	<u>1228</u>		<u>\$122,800.00</u>

Institutions in British Columbia calculate the number of Scholastic Awards available to the student population of any given semester as 17% of those students registered in a "full-course load". We, at Simon Fraser University, had calculated the number of Scholastic Awards as 17% of those students enrolled in a minimum of 12 semester hours.

Effective Summer 1973, the Government of British Columbia required that institutions calculate the number of Scholastic Awards available as 17% of those students registered in a minimum 15 semester hours. This resulted in a significant decrease in awards available to Simon Fraser University students in the Summer and Fall Semesters 1973.

#### 5.12 The Government of Canada Student Loans Plan

This is a plan introduced by the Federal Government to assist students who, without loan assistance, would be unable to pursue full time post-secondary studies at a specified educational institution. The maximum loan for an academic year is \$1,400.00. Total loans to any student cannot exceed \$9,800.00. A loan of up to \$700.00 may be authorized for a single semester which is part of a longer programme of study. Borrowers under the plan are required to repay principle and interest by regular monthly instalments.

Payments commence six months after the borrower ceases to be a full time student at a specified educational institution. No payments are made while the borrower is a full time student nor for six months thereafter. Interest during this period is paid by the Federal Government on behalf of the student.

Need for loan assistance is determined by Provincial Loan authorities in accordance with administrative criteria established for use throughout Canada.\* A parental contribution table is an integral part of the criteria and is applied in all cases where the student has not established financial independence as defined in the Canada Student Loans Plan. Students are expected to save a substantial amount of any income from summer or other employment. Lack of funds due to unessential spending may not be considered as unavoidable need for loan assistance. Students who apply for loans should consider carefully the repayment obligation being undertaken.

A student in need of a Canada Student Loan, must, as a first step, obtain an application form from the institution he or she plans to attend. The application must be completed carefully and accurately by the student, and where applicable, by his or her parents. Applications require declarations by both the student and his/her parents that all information provided is correct.

\*with the exception of the Province of Quebec.

5.12 continued

When the application is completed it must be submitted to the Financial Aid Officer of the British Columbia educational institution to be attended. Students planning to attend institutions outside of British Columbia will send applications directly to: Student Affairs Branch, Division of Post-Secondary Services, Department of Education, 535 Yates Street, Victoria, B.C. V8W 2Z6.

If the student's application is approved, the student will receive in the mail a Certificate of Eligibility. The student must take the Certificate to the Financial Aid Office for signature confirming registration. The student then takes it to his or her bank and the loan is put through the student's account. Students are advised to keep in constant touch with the bank from which they secure their loan.

In order to retain their interest free status, students must obtain a Schedule 2 form from their bank and have their full time enrolment confirmed each semester by the Financial Aid Office.

Confirmation of enrolment must be obtained during the semester concerned, and cannot be made retroactive.

The following statistics provided by the Department of Education for the Government of British Columbia indicates the amount of support provided by Canada Student Loans to students attending Simon Fraser University during 1973.

### 5.13 British Columbia Government Bursaries

The Government of the Province of British Columbia annually provides funds to assist students who are residents of this province to commence or to continue an acceptable full time programme of post-secondary study at designated post-secondary institutions.

The Provincial Bursary Plan is administered in conjunction with the Canada Student Loans Plan, its purpose being to enable qualified needy students to reduce the amount of indebtedness they must incur to continue their post-secondary education. As the Provincial Bursaries are free grants of money from public funds, students and the parents of students defined under the Plan as financial dependents must accept the principle that they are primarily responsible for provision of the funds required for the expenses of post-secondary education. The Provincial Bursaries Plan and the Canada Student Loans Plan make available means to supplement funds available from the student/family resources.

The British Columbia Provincial Bursary is available only to those students who are proceeding to a diploma or a first degree at the undergraduate or equivalent level of a post-secondary programme of study. A Provincial Bursary will not be granted to students in Post-Graduate Studies, nor to those registered as "qualifying" or "unclassified". These bursaries may be granted only to students in full attendance in a full programme of undergraduate or equivalent level of post-secondary studies.

There are four categories of bursaries. The amount of that granted to an applicant for assistance depends upon the total amount of his financial need as determined under the Regulations of the Canada Student Loans Plan, and as recommended to the British Columbia Student Aid Committee.

To qualify for the grant of a Province of British Columbia Bursary (money that does not have to be repaid), a student must:

5.13 continued

- 1) comply with the criteria of the Canada Student Loans Plan as administered by the Provincial Authority of British Columbia
- 2) submit in accordance with the instructions stated on the form a fully completed Application for Financial Assistance
- 3) have been resident in the Province for not less than twelve months prior to the first day of the month in which he commences in the programme of study for which he seeks financial assistance. In the case of students qualifying under the provisions of (b) and (c) above, the year of residence within this Province need not be that immediately preceding this academic session, but the provision exists that the student shall not have established residence of twelve consecutive months (excluding periods of study) in another province or country
- 4) have completed successfully his last previous full-time full course load for an academic year of two terms or two semesters, without a failure in any course requisite for unconditional admission to the next higher academic session. Students allowed to advance while carrying a deficiency of academic credits will not be eligible for assistance under the Provincial Bursary Plan until the deficiency is cleared.

During 1973, 732 students attending Simon Fraser University received \$198,500.00 from the British Columbia Government Bursary Plan. This amount provided an average award of \$271.00. These figures are provided by the Department of Education and are considered misleading. Although they are the only statistics available, they do not provide for a separation of awards by semester. Consequently, the number of recipients is decreased by that number who received two semester awards. The net effect is to unrealistically inflate the average size award per student per semester.
