## MEMORANDUM

To SENATE

From B. G. WILSON

VICE-PRESIDENT, ACADEMIC

Subject INSTITUTE OF CANADIAN BANKERS  
PROGRAM

Date JUNE 21, 1972

MOTION: "That Senate approve, for a three year period, the admission of students who are selected for entry to the Institute of Canadian Bankers Program who have not otherwise met normal admission requirements, provided they are registering in that program and will undertake approved courses at this institution."

# SIMON FRASER UNIVERSITY

S.72-81

## MEMORANDUM

To SENATE

From B. G. WILSON

VICE-PRESIDENT, ACADEMIC

Subject INSTITUTE OF CANADIAN BANKERS  
PROGRAM

Date JUNE 21, 1972

The Institute of Canadian Bankers for a number of years has had in existence programs leading to the ICB Certificate. Discussions have been under way for some time with the Institute concerning desires to utilize a number of regular Senate approved courses of this institution in fulfilment of part of the full ICB Program. Students registered in the ICB Program undertaking the regular approved courses at Simon Fraser University may be exempted up to six full year courses of the twelve required to complete the full ICB Program. Such exemption would be a matter for ICB and not fall under University jurisdiction.

Students in the ICB Program would register for credit, but during the initial three year period would be permitted to convert to audit at the end of the ninth week of classes in a course, but without any fee adjustment.

The majority of persons selected for entry to the ICB Program will have fulfilled Simon Fraser University admission requirements in the normal fashion or through mature student regulations. Some of the individuals selected for entry by the Institute in the past may not have fulfilled these requirements. It is expected that there may continue to be some such persons in the future who would fall in this category.

### MOTION

That Senate approve, for a three year period, the admission of students who are selected for entry to the Institute of Canadian Bankers Program who have not otherwise met normal admission requirements, provided they are registering in that program and will undertake approved courses at this institution.

Note: It is the intention to review the progress of persons so admitted in the three year period proposed to make appropriate recommendations at the end of this trial period.
