

WHEREAS the present crisis at Simon Fraser concerning admissions is in large measure the result of there being no sound provincial policy for post-secondary education and;

WHEREAS there are insufficient provincial funds to maintain high standards at regional college and university levels and;

WHEREAS there is no enrolment limitation at Simon Fraser.

BE IT RESOLVED THAT Senate direct Acting President Strand to inform the Provincial Government that

- a) Senate fully supports the President of the University of British Columbia in his statement for immediate and substantial increases in University education financing, and;
- b) Senate demand government action to ensure acceptable academic standings and accreditations in provincial post-secondary education institutions.

E. Gibson.
