1. Approval of the Agenda

The Agenda was approved as distributed.

2. Approval of the Minutes of the Open Session of April 2, 2001

The Minutes were approved as distributed.

3. Business Arising from the Minutes

There was no business arising from the Minutes.

4. Report of the Chair

i) The Chair advised Senate of his recent trip to Asia on behalf of the University which included follow up business with the Asia Development Bank and meetings with community leaders and Alumni in Hong Kong, Kuala Lumpur and Singapore.

ii) Paper S.01-30 – Order-in-Council Appointments (For Information)

On behalf of Senate the Chair extended a welcome to two new Order-in-Council appointments – Devinder Sekhon and Ranbir Thandi; and acknowledged the reappointment of OIC Senators – Dina McInnes and Barbara Naef.

5. Question Period

In response to an inquiry about the current status of the University's budget allocation, the Chair advised that the University would receive close to the 5% increase previously reported. Senate was advised that the original budget letter fell short of expectations and a considerable amount of lobbying had been done to restore the increase to original expectations.

A request was made for an update with respect to the proposed move of the School for Contemporary Arts to the Woodward's building in downtown Vancouver. The Chair confirmed that the Government had announced support for the inclusion of SFU's School for Contemporary Arts in the Woodward's project and had advised that the project would be separate from the normal funding of capital projects since it would be centered in the Ministry of Tourism and Culture. With that assurance the University proceeded with planning even though Contemporary Arts was ranked as the second priority in terms of capital projects for the University. After the project was well developed, the University was informed that the Government felt the project belonged within the Ministry of Advanced Education and Training and the University was asked whether it would adjust its priorities if fast track funding became available. Subsequent to the University's agreement, the Government then returned the project to the other Ministry and asked the University to confirm that it remained a top priority. Following consultations with senior administrators, the Chair informed the Ministry that the University would agree to adjust its priorities provided that the Ministry recognized that the Technology and Environment Centre (TEC) remained a top priority and planning towards the establishment of that building continued. The Ministry agreed to continue to fund planning on that building, although in a lesser amount, and the University agreed to continue pre-planning on the

Woodward's project on the understanding that if the Woodward's project was not approved, full scale funding and planning on the TEC building would return. The Chair noted that the adjustment in priorities was made for several reasons. Firstly, although Contemporary Arts had been ranked second, it was a very high priority as it was the worst accommodated unit in the University. Secondly, it was strategically important for SFU to continue its positioning in downtown Vancouver, especially given the considerable community-wide support for the inclusion of Contemporary Arts in the Woodward's project. Thirdly, the Chair expressed opinion that the next Government was strongly committed to considerable expansion in Applied Sciences and he felt that support in that area was most likely. Therefore, it was believed that the decisions taken will optimize and make considerable progress for both priorities.

Additional questions arose with respect to the impact of relocating the School downtown and Senate was advised that an ongoing cultural presence on both campuses and the issue of course scheduling would be looked as part of the planning process of the project.

The Chair informed Senate that because of the issues affecting the TEC building, the Vice President Academic will begin an immediate aggressive proactive planning process to assure some transitional arrangements to accommodate the stresses in Science and Applied Sciences for new faculty and laboratories over the next several years. Plans are being developed and will be reported to Faculties.

6. Reports of Committees

A) Senate Appeals Board

i) Paper S.01-31 – Annual Report (For Information)

N. Heath, Director of Admissions and Secretary to the Senate Appeals Board, was in attendance in order to respond to questions.

Reference was made to cases from 1988 and 1996 and inquiry was made about time limits. Senate was advised that this issue had been considered previously and a decision had been made not to impose any time limits. Further information was requested as to why the appeal from 1988 had been sustained. N. Heath advised that he would provide Senate with the information at a later meeting.

B) Senate Committee on University Priorities

i) Paper S.01-32 – Establishment of Centre d'études francophones Québec-Pacifique

Moved by J. Pierce, seconded by J. Ogloff

“that Senate approve and recommend approval to the Board of Governors the establishment of the Centre d'études francophones Québec-Pacifique as outlined in S.01-32”

M. Fauquenoy, Acting Chair, Department of French, was in attendance in order to respond to questions.

Brief discussion took place with respect to a Quebec government official on the Steering Committee.

Question was called, and a vote taken.

MOTION CARRIED

ii) Paper S.01-33 – Three-Year Plan of the Vice-President Academic 2001-2004 (For Information)

The Vice-President Academic provided Senate with information about the planning process which led up to the generation of the three-year plan. Senate was advised that departments were requested to generate academic plans for submission to Deans following a set of planning guidelines. These departmental plans were then molded into Faculty and University priorities by the Deans and the Vice-President Academic and the first draft of the three-year plan was submitted to the Senate Committee on University Priorities (SCUP). SCUP in turn made various comments and observations that were incorporated into the documentation before Senate. The plan was intended to recognize departmental and Faculty plans and to establish a direction for the university as a whole which was outlined in the seven listed goals (p.9).

Discussion took place in which the following comments and observations were made:

- although the document recognized the importance of the more traditional role of the university, the language referring to the current policy towards tuition fees in the Province was disappointing, and it would have been nice to see a greater emphasis placed on the need for increased Government funding
- Page 2, Environmental Context, Societal changes, in first line the word 'effect' should read 'affect'
- although the document referred to the crisis facing the University with respect to space and operating and renovation funds, there was no sense of urgency in the language to seek strong support from the Government for more resources to resolve these serious problems
- the language associated with goal 3 focuses exclusively on recruitment and does not discuss retention
- a fraction of the 1% of the total university budget which is proposed to be put into the Strategic Initiatives Fund should be allocated towards the protection of core programs

Senate was advised that efforts were being made to identify an interim solution to some of the space problems. There was a considerable amount of one-time only money available this year to fund renovations and start up costs and the Administration was very

much aware of the urgency of finding infrastructure funding to devote to core infrastructural problems such as space.

C) Senate Committee on Undergraduate Studies

i) Paper S.01-34 – Undergraduate Curriculum Revision – School of Computing Science (For Information)

Senate received information that the Senate Committee on Undergraduate Studies, acting under delegated authority, approved the use of ECON 103 or ECON 105 instead of ECON 100, deleted in 1998, as an allowable social sciences course for calculating the GPA requirement for internal transfer to Computing Science, effective immediately.

ii) Paper S.01-35 – Undergraduate Curriculum Revision – Department of History (For Information)

Senate received information that the Senate Committee on Undergraduate Studies, acting under delegated authority, approved the resurrection of HIST 412 which had been temporarily withdrawn.

iii) Paper S.01-36 – Undergraduate Curriculum Revision – Department of Statistics and Actuarial Science (For Information)

Senate received information that the Senate Committee on Undergraduate Studies, acting under delegated authority, approved a waiver of the two-semester time lag for ACMA 490 for early offering in Summer semester 01-2.

D) Senate Policy Committee on Scholarships, Awards and Bursaries

i) Paper S.01-37 – Revised Terms of Reference – Shrum Entrance Scholarships (For Information)

Senate received information that the Senate Policy Committee on Scholarships, Awards and Bursaries, acting under delegated authority, approved a revision to the terms of reference for all Shrum Entrance Scholarships in order to comply with Canadian Interuniversity Athletic Union regulations regarding entrance scholarships.

ii) Paper S.01-38 – New Award – Faculty of Business Administration – Dean's Student Service Award (For Information)

Senate received information that the Senate Policy Committee on Scholarships, Awards and Bursaries, acting under delegated authority, formally approved the Dean's Student Service Award in the Faculty of Business Administration.

iii) Paper S.01-39 – Revised Terms of Reference – SFU Athletic Scholarships and the Athletic Entrance Awards (For Information)

Senate received information that the Senate Policy Committee on Scholarships, Awards and Bursaries, acting under delegated authority, approved a revision to the terms of reference for SFU Athletic Scholarships and Athletic Entrance Awards in order to allow the University to more easily comply with CIAU regulations.

Reference was made to the CGPA requirement for the Entrance Award and opinion was expressed that the term 'Entrance' did not appear to be appropriate. It was noted that despite the word "Entrance", some students receive this award at the end of their first year. Senate was advised that the revision was an effort to bridge between CIAU and NAIA regulations and provide better flexibility to the University to distribute the awards.

7. Other Business

i) Paper S.01-40 – Election Report – Senate and Board of Governors, Spring 2001 (For Information)

Senate received information with respect to the results of Spring 2001 elections of faculty and students to Senate and the Board of Governors.

ii) Paper S.01-41 – Announcement – Senate Vacancy (For Information)

Senate received information that Judy Zaichkowsky would be absent from Senate for two semesters starting at the beginning of May and that a by-election would be required by and from the Faculty of Business Administration to seek a replacement.

iii) On behalf of Senate, the Chair extended thanks and best wishes to the following Senators who are completing terms of office at the end of May 2001: James Ogloff, Rina Zazkis, Larry Dill, David Finley, Kait Cooper, Angela Hold, Georgia Livadiotakis, Veronica Miralles-Sanchez, Mac Runyowa, Christopher Steinbach, Ryan Stewart and David Yau.

8. Information

The date of the next regularly scheduled meeting is Monday, June 4, 2001.

Open Session ended at 6:45 pm. Following a brief recess, Senate moved into Closed Session.
