## MEMORANDUM

To..... Drs. Birch and O'Connell  
..... Faculty of Education  
Subject..... T.A.'s for Summer Session

From..... Kieran Egan  
..... Visiting Professor  
Date..... April 6, 1973

During 1973-2 I will be teaching Ed. 220-3 and Ed. 442-4. If the numbers enrolling for Ed. 220-3 are sufficient to warrant my having a T.A, I would like Mrs. Diane Austin to do this job. (She has done it very competently for the previous two semesters.)

If by any wild chance the numbers enrolling in 220-3 should be quite high, and also, by an even wilder chance, should the numbers in 442-4 be high enough to warrant two T.A.'s I would be grateful if Idene Klaper could be a T.A. for 220-3 also. No T.A. could help with 442-4, so I would have to take care of all groups in that course by myself, in which case I would value help with the 220-3 tutorials.

I expect there will be no need to take any notice of this memo. I'm only trying to provide for the most unlikely contingency.
