**DESCRIPTION**

This course, a prerequisite for Educ 430 Designs for Learning Dance, is designed for people with or without dance training, who want to teach dance in arts, P.E., or classroom contexts. In this experiential class students will develop an understanding of the movement concepts (action, space, time, force, and relationship) which are the framework for making and teaching dance. This course will explore dance as a nonverbal and artistic language, and students will be introduced to the creative process involved when using and teaching dance as an expressive art form. Opportunity will also be given to utilize the art of improvisation as a way of discovering movement and integrating dance within the wider curriculum. Students will explore a variety of planning and presenting dance lessons. Please wear comfortable clothes for dancing.
