

Education 491

Goals and Objectives

Goal

To provide the opportunity for students to review their progress with their academic plan.

Objectives

Students will:

- 1.1 reassess personal short and long term academic goals
- 1.2 demonstrate the ability to be able to refer to specific Calendar regulations pertaining to requirements for degrees, certificates or diplomas, as necessary.
- 1.3 demonstrate ability to plan a sequence of courses and organize other requirements to fulfill an academic goal (i.e. Bachelors, teaching certificate etc.).

Goal 2

To plan, implement, and evaluate a tutoring project.

Objectives

Students will:

- 2.1 assess pupils to determine goals and objectives for tutoring project
- 2.2 plan a series of lessons to meet the needs of an individual student
- 2.3 teach and evaluate those lessons
- 2.4 maintain a written record of the tutoring project

Goal 3

Students will begin to develop systematic observational skills.

Objectives

Students will:

- 3.1 observe a pupil in a classroom situation
- 3.2 demonstrate ability to collect data objectively

Goal 4

Through the process of discussion and reflection on their observations and tutoring projects students will begin to develop personal understandings of the principles of teaching and learning

Goal 5

To interact professionally with a School Associate and others in the educational community.

Objectives

Students will:

- 5.1 observe all ethical conventions of objectivity and confidentiality
- 5.2 plan cooperatively with their School Associates
- 5.3 interact professionally within the school setting

Goal 6

To begin the process of analyzing and evaluating personal performance, and accepting feedback.

Objectives

Students will:

- 6.1 analyze the effectiveness of their tutoring project
- 6.2 participate in evaluating their overall performance
- 6.3 reflect on their learning for the semester
