

EDUCATION 487-4 ADVANCED EDUCATIONAL MEDIA

SUMMER SESSION, 1974

LIMIT: 15 STUDENTS PERMISSION OF INSTRUCTOR REQUIRED

PREREQUISITE: EDUCATION 463

As a follow-up to Education 463, the objective for Education 487 is to provide an indepth learning experience in the concepts and application of educational media. In particular, the following processes will be carried out:

- 1) Seminars on the conceptual level of educational media. Topics include: Principles of "educational" communication; Media for Individualizing Instructions; Learning Systems; Teaching Machines and Computer Based Instructions; and more.
- 2) Tutorial "think tanks" for the purpose of assisting each student's project by suggestions and feedback from fellow students.
- 3) Group learning experiences in the field. For example, the group will produce an educational television program at Provincial Educational Media Centre. Also the group will spend a full day at Mount Currie as media resource people to assist the Mount Currie Community School; and more.

DETAILS: 1. Seminar schedule - Monday and Wednesday  
10:30-12:30 p.m.

2. Tutorials to be scheduled.

3. Production facilities - Learning Resources Lab.  
- open schedule.

4. Learning Facilitator - Ed Wong

EXPECTATIONS:

1. Students to participate in all seminars and tutorials and field experiences.
2. Students to produce an educational media project.
