MEMORANDUM

ATTENTION	Senate	DATE	July 6, 2018
FROM	Mark Lechner, Acting Chair Senate Committee on Undergraduate Studies	PAGES	1/1
RE:	Course Changes		

For information:

Acting under delegated authority at its meeting of July 5, 2018 SCUS approved the following curriculum revisions effective Summer 2019.

a. Faculty of Science**1. Department of Biomedical Physiology and Kinesiology**

- (i) Prerequisite change for BPK 407 (SCUS 18-01b) (Spring 2019)

b. Faculty of Communication, Art and Technology (SCUS 18- 46)**1. School of Communication**

- (i) Title and description change for CMNS 333

COURSE SUBJECT NUMBER TITLE

TYPE OF CHANGES. Please type 'X' for the appropriate revision(s):

Course number Units Prerequisite
 Title Description Equivalent Statement

WORDING/DESCRIPTION EDITS. Indicate deleted or changed text using strike through, indicate added or new text using underline. If you need to enter more text than the box allows, drag the endpoint of the text box to make it bigger, as it will not automatically expand. Please review the "Equivalency statements" section under [Information about specific course components](#) if changing equivalent statement(s).

Human Physiology Laboratory BPK 407 (3)
 Experiments dealing with the nervous, muscular, cardiovascular, respiratory, and renal systems are covered. Prerequisite: BPK ~~(or KIN)~~ 305 and 306. ~~, one of which must already have been completed and the other can be taken concurrently. Students with credit for KIN 407 may not take this course for further credit.~~ Quantitative.

EFFECTIVE TERM AND YEAR FOR CHANGES

Fall, Spring, Summer and year (please enter in textbox)

RATIONALE (must be included)

The students should have the 305 and 306 prerequisite knowledge before taking 407. Since BPK 407 is a lab course, there is minimal time to discuss theory during the lab. If a student is taking 305 or 306 concurrently with 407 they may not have the appropriate physiology theory before they take a specific 407 lab. This would put the student at a disadvantage. Thus the option for taking one of them concurrently should be deleted.

Reference to equivalent KIN courses is being deleted from prerequisites in all BPK courses

CMNS 333 (4) Digital Policies in a Global Context: Current Issues, Concepts and Analysis
~~Broadcast Policy, Law and Regulation in a Global Context~~

We will investigate current policy issues and case studies from Canada and around the world to examine communication policy as a field shaped by change and continuity. Students will get an introduction to communication policy analysis with the aim to speak and write analytically about current challenges such as network neutrality, copyright, content regulation and data protection. Students will discuss the tensions that arise between the national-regional and global jurisdictions, and how these are relevant to their everyday life.

~~Television, in various formats, in Canada, is traditionally seen as important to political and cultural self-determination. The production, financing, and distribution of information and entertainment TV services are restructuring, with profound consequences for broadcast law and regulation in global markets. The rudiments of strategic analysis of stakeholders, companies, industrial sectors (strengths, weaknesses, threats, opportunities) and technical policy writing and interventions will be covered. A simulation will be staged around a convergence theme drawn from the contemporary regulatory agenda in Canada.~~

Prerequisite: One of CMNS 230 or 240; and one of CMNS 202 (or 262) or 261.
