<p>Rationale for change:</p> <p>To add a REM Honours option to the REM major. This will enhance the appeal of the REM undergraduate program and help in attracting good students. It also allows more proficient undergraduates with the opportunity to work on closely with REM’s diverse research faculty via the Honours thesis requirement. In addition, we are using this opportunity to condense and clean up the preamble language for the REM Major.</p>

Calendar Entry Change

Name of Program or Name of Faculty: **DATA honours (Faculty of Science)**

Rationale for change:

The DATA honours program currently has two concentrations (Open and Statistics) that are intended to strengthen depth and provide students with prerequisites for graduate school admission in different fields. The present change concerns the addition of a Mathematics concentration, which will enhance theoretical foundations in that field.

Differences Between Concentrations

Open Concentration vs. Mathematics Concentration

Mathematics Concentration adds MACM 203, MACM 204, MATH 242, and MATH 251.
Mathematics Concentration replaces 'complete one of a list of courses' with STAT 270.
Mathematics Concentration removes BUS 439 and BUS 445.
Mathematics Concentration adds choose one from a list of MATH courses.
Mathematics Concentration adds MATH 402W and a 400 level MATH course.
Mathematics Concentration removes 'choose 9 units from a long list'.

Effective term and year: Fall 2019
