FROM:	Zareen Naqvi, Institutional Research and Planning (IRP)	PAGES:	1 of 1
RE:	IRP Reports for Information		

At a meeting of Senate held on March 7, 2011, Senator Paul Percival requested that relevant IRP reports, such as the annual Grades Report, be brought to Senate for information.

Attached are two reports for information:

- **2019/20 Grades Report:** This report is prepared once a year and it summarizes course grades at the University over a ten year period. The 2019/20 Grades Report covers the period from 2010/11 to 2019/20. Attached is the Summary Report. More detailed information is available on IRP's website: <http://www.sfu.ca/irp/students/grades-report.html>
- **2019 Undergraduate Student Survey (UGSS) Report:** The UGSS survey is conducted every fall term. The attached Highlights Report presents a summary of key findings from the Fall 2019 survey. Topics covered are selected in consultation with faculties, Student Services and other administrative units of the University. This year's topics included: course availability, credential completion time, teaching and curriculum, services, and university culture and environment. The full report is located at: <http://www.sfu.ca/content/dam/sfu/irp/surveys/ugss/ugss2019report.pdf>

Fall 2019 Undergraduate Student Survey: Highlights

The Undergraduate Student Survey has been conducted at Simon Fraser University every Fall semester since 1992¹ (except in 2002). This annual survey provides essential feedback on the academic experiences and concerns of our undergraduate students. Every year, the survey asks students about their experiences with course availability and credential completion at SFU, as well as a range of other topics that change from year to year. This year's topics included teaching and curriculum, services, and university culture and environment.

A total of 7,646 students participated in this year's survey, yielding an overall response rate of 30.1%. Highlights of the survey results are presented here. Statistics provided in this summary and in the full report are estimates based on survey respondents. Assuming that the sample is representative, proportions calculated on all respondents are accurate within $\pm 1.0\%$ ², 19 times out of 20. The full report is available on the Institutional Research and Planning website: <http://www.sfu.ca/irp>

General Experience

- 82% of respondents are satisfied³ with their general SFU experience.
- 72% of respondents feel proud to attend SFU.
- When students were asked what single thing SFU could do to improve their experience here, the most common responses were:
 - improve student life,
 - improve construction, and
 - improve facilities.

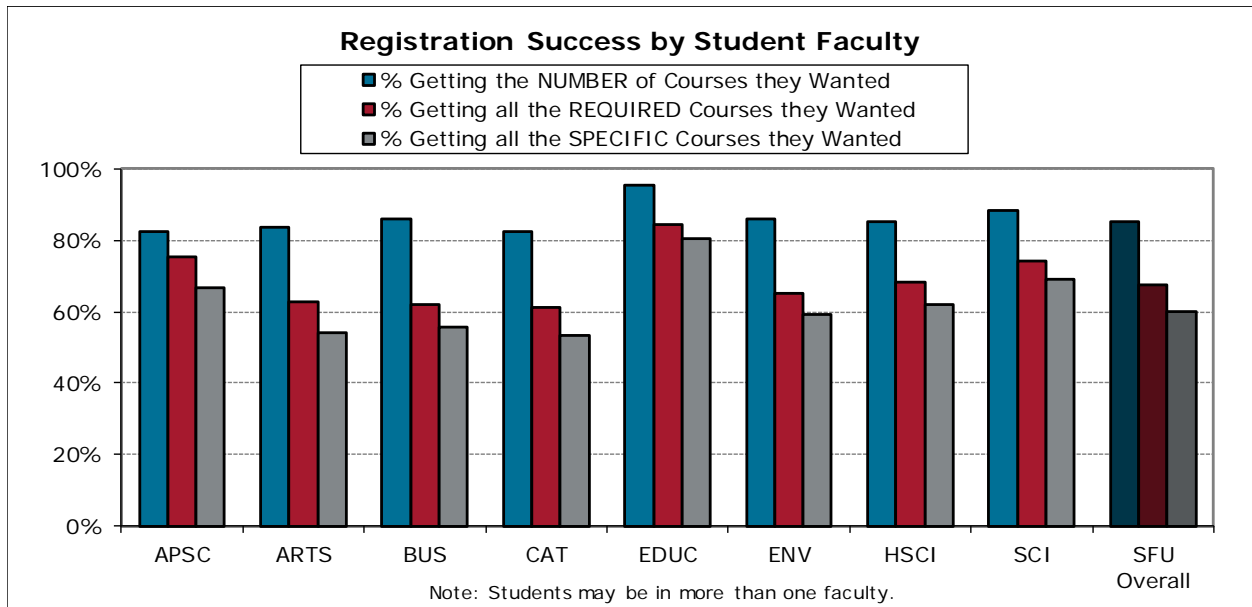

¹ It should be noted that a change in methodology, from in-class paper survey to online survey, was instituted in 2006. The paper surveys, administered to a random sample of classes, resulted in a "captive audience" and high response rates. In contrast, the online surveys, usually administered to the entire SFU undergraduate student population, result in larger samples but lower response rates, which could make the results less generalizable. Measures were taken to reduce potential biases resulting from a lower response rate.

² Note that this margin of error does not control for multiple comparisons. Survey research should be considered exploratory, and definitive conclusions must be drawn with caution.

³ For the purposes of this report, the categories of "Very Satisfied" and "Somewhat Satisfied" have been combined and will be referred to as "satisfied."

Course Availability

- **NUMBER of Courses:** 85% of respondents were able to register in the number of courses they wanted this fall. This is statistically significantly higher than the last time this question was asked in 2017 (83%).

- **REQUIRED Courses:** 68% were able to register in all of the required courses they wanted this term. This is similar to last year's rate of 67%.
 - Registration difficulty in required courses was most often due to:

 - courses not being offered this term, and
 - courses being offered at another campus with not enough time to travel between campuses.

- **Satisfaction with Course Availability:**
 - Satisfaction decreases as course level increases, ranging from 79% satisfaction for courses numbered XX1 to 199, down to 62% for courses numbered 400 to 499.
