Memo to SGSC

To: Senate Graduate Studies Committee
From: Andrew Gemino, Associate Dean, Graduate Programs
Re: MSc Finance Calendar Changes for Fall 2022
Date: October 28, 2021

The following curriculum revisions have been approved by the Beedie School of Business and are forwarded to the Senate Graduate Studies Committee for approval. These curriculum items should be effective for **Fall 2022**.

Please include them on the next SGSC agenda.

- **Calendar Description Change for MSc Finance: Introduction of a Research Stream to the Program Requirements**
- ~~**New Course Proposals for BUS 890 and BUS 891**~~
- ~~**Course outlines to accompany proposals**~~
- ~~**Course Change form for BUS 752**~~

Thank you for your attention herein. Should you have any questions or concerns, please do not hesitate to contact me.

Andrew Gemino
Associate Dean, Graduate Programs, Beedie School of Business

Calendar Entry Change for MSc Finance

Summary of change:

Adding a new stream to the program.

Rationale for change:

While there is significant demand in the industry for employees with a high level of education that is industry/practitioner oriented, there clearly is also demand for employees with a high level of education that is more research/academic oriented. Currently, the MSc in Finance addresses the industry/practitioner needs through 'Investment' and 'Risk Management' streams. However, there is no stream to cater to those who aspire employment that focuses more on research/academia. The proposed research stream addresses this shortcoming.

An important aspect of academia is research. Research-trained 'problem-solvers' also demand high salaries at institutions such as quant funds. Beedie has an active Ph.D. program, yet the MSc in Finance currently does not stream into the Ph.D. program and neither does it cater to industry demand for MSc level research-focused workforce demand. The Research Stream will: improve recruitment and retention of top students, increase the feasibility of a better selection of cutting-edge courses, increase the attractiveness for local students to explore the Ph.D. program, improve the standing in the labor market, realize significant synergies with the Ph.D. program.

The research stream will require a minimum GPA of 3.5 upon admission to the stream.

Effective term and year:

Fall 2022

Will this change impact current students? If yes, what is the plan for current students?

All current students will be able to finish their degree based on the current requirements. Students entering in Fall 2021 will have the additional option to select the Research Stream if they wish to do so.
