MEMORANDUM

ATTENTION Senate **DATE** March 15, 2023
FROM Jeff Derksen,
Chair of Senate Graduate Studies
RE: Committee (SGSC)
Course Changes

For information:

Acting under delegated authority at its meeting of March 7, 2023, SGSC approved the following course changes, effective **Fall 2023**:

Faculty of Applied Science

School of Sustainability Energy Engineering

Course changes (Description, Seminar hours): SEE 896, SEE 897

Faculty of Communication, Art & Technology

Publishing Program

Course changes (Units): PUB 899, PUB 900

Faculty of Environment

Department of Archaeology

Course changes (Title, Description): ARCH 873, ARCH 872, ARCH 892

School of Resource and Environmental Management

Course changes (Title, Description, Prerequisite): REM 602

Course change (Title): REM 644

Course changes (Title, Description, Equivalent Statement): REM 611, REM 643, REM 646, REM 801

Course changes (Description, Equivalent Statement): REM 621

MEMORANDUM

Attention Dr. Jeff Derksen
Dean, Graduate Studies

Date: Feb 02, 2023

From Dr. Parvaneh Saeedi, psaeedi@sfu.ca
Faculty of Applied Science, Graduate Studies Committee

Re: FAS-SEE Program change

The faculty of Applied Sciences Graduate Studies Committee would like to propose the following changes to the School of Sustainable Energy Engineering's Masters and PhD programs:

- ~~1. A new course SEE 810 (Sustainability and Sustainable Energy Technologies) is proposed that fulfills the need for a core course on Sustainable Energy. This will be part of the mandatory requirement for MASC and optional for the PhD students.~~
 - ~~2. A new course SEE 811 (Technical Communication Skills) is proposed that fulfills the need for a technical communication skills course taken by all MASC and PhD students.~~
 - ~~3. A calendar entry change request to add SEE 810 to the list of mandatory courses articulated in the SEE MASC program requirements and add SEE 811 to the list of mandatory courses articulated in the SEE MASC and SEE PhD programs.~~
- ~~The rationale for these additions is that adding SEE 810 and SEE 811 will ensure that students have a suitable foundation in the concepts of sustainable energy and technical communications.~~
4. We also request to change the scope of courses SEE 896 and SEE 897 as previously articulated in the SEE MASC and PhD program requirements, respectively. This will remove the publication and presentation skills component of the course and reduce the duration to 1hr/week.

The scope of SEE 896 and SEE 897 will narrow down by focusing on traditional graduate seminar components, and instead require separate courses to build on technical and communication skills.

We request for the changes to appear in the SEE calendar for Fall 2023.

Regards,
Parvaneh Saeedi

5118 - 10285 University Drive
Surrey, BC, Canada V5A 1S6

MEMORANDUM

ATTENTION Associate Dean Research and Grad Studies, Faculty of Applied Sciences DATE 30 Jan 2023

FROM Dr. Colin Copeland, Graduate Program Chair, School of Sustainable Energy Engineering PAGES 1

RE: ~~Creation of SEE 810 and SEE 811 new courses~~
Changes to SEE 896 and SEE 897 courses
~~SEE calendar entry to update the requirements for MAsc and PhD programs~~

This memo is to accompany some changes to the SEE MAsc and PhD programs as follows:

~~A new course SEE 810 is proposed that fulfills the need for a core course on Sustainable Energy. This will be part of the mandatory requirement for MAsc and optional for the PhD students.~~

~~A new course SEE 811 is proposed that fulfills the need for a technical communication skills course taken by all MAsc and PhD students.~~

~~A calendar entry change request to add SEE 810 to the list of mandatory courses articulated in the SEE MAsc program requirements and add SEE 811 to the list of mandatory courses articulated in the SEE MAsc and SEE PhD programs.~~

We also request to change the scope of courses SEE 896 and SEE 897 as previously articulated in the SEE MAsc and PhD program requirements, respectively. This will remove the publication and presentation skills component of the course and reduce the duration to 1hr/week.

These changes are all anticipated to appear in the SEE calendar for Fall 2023.

~~The rationale for these additions is that adding SEE 810 and SEE 811 will ensure that students have a suitable foundation in the concepts of sustainable energy and technical communication.~~

The scope of SEE 896 and SEE 897 will narrow by focusing on traditional graduate seminar components, and instead require separate courses to build on technical and communication skills.

Colin Copeland

SEE Graduate Program Committee Chair

Graduate Course Change

Attach a separate document if more space is required.

Course Subject/Number	SEE 896	Units	0	Effective Term and Year	Fall 2023
Course Title	MASC Graduate Seminar				
Rationale for Change:	<p>The scope of SEE 896 will be narrowed, removing the publication and presentation skills components, and changing from 3 hours to 1 hour per week. MASC Students will instead be required to take a separate communication skills course. SEE 896 will focus on traditional graduate seminar components while retaining the goal of supporting a scholarly community of practice and student well-being.</p>

Sustainable Energy Engineering
SEE 896(0) MASC Research Seminar
Credits: 0

Course Description

Presentation and discussion of current research topics. Includes guest speakers, student presentations, readings, and professional development workshops. A focus is building a community of sustainability scholars, while enhancing student well-being. MASC students must enroll in SEE 896 every term in which they are enrolled, until all program requirements have been met. Graded on a satisfactory/unsatisfactory basis.

Intended Learning Outcomes

1. **Exposure to research and concepts related to sustainability, energy and engineering** through guest experts from industry and academia, students sharing their research with each other, and readings. Concepts explored could include: historical contexts of sustainability, energy, and engineering, new developments and research in renewable energy, the UN SDGs, complexity, and resilience. Also explored will be the social, ethical and economic dimensions of sustainable energy engineering.
2. **Professional development workshops** such as professional engineering regulatory system, career development and exploration, SFU resources and opportunities for graduate students, knowledge mobilization strategies, intellectual property, academic integrity, etc.
3. **Building a scholarly community** by engaging with a wide variety of concepts, not just in student's specialized area of study, and connecting the concepts with their own professional and personal experiences. The seminar also aims to **enhance student well-being** by providing a forum to share challenges of graduate student life, become comfortable working in an interdisciplinary environment, and develop their scholarly and professional identity.

Course Format

The class meets 1 hour per week during the semester.

MEMORANDUM

ATTENTION:	SGSC
FROM:	Arne Eigenfeldt, Chair, FCAT UCC
RE:	Items to be added to SGSC meeting agenda
DATE:	February 15 th , 2023

FCAT GSC has voted to approve the following changes at the FCAT GSC meeting that occurred on February 14th, 2023:

Masters of Publishing program:

- ~~• Master of Publishing program course change Director memo~~
- ~~• Calendar entry change for Masters of Publishing program~~
- PUB 899: Publishing Internship or Project (6) – Graduate Course Change
- PUB 900: Publishing Project Report (6) – Graduate Course Change

Please place these items and additional materials on the next meeting of SGSC.

Thank you.

Arne Eigenfeldt, D.M.
Associate Dean, Academic, FCAT
Chair, FCAT UCC

pub-info@sfu.ca

February 7, 2023

This memo introduces **two Course Change forms** ~~and one Calendar Entry Change~~ for Master of Publishing Program Requirements.

These changes rationalize and simplify Unit and tuition-fee complexities for two Master of Publishing Program courses, PUB 899 and PUB 900. The Master of Publishing Program tuition is assessed on a fee-per-unit basis.

As per the change forms, both PUB 899 and PUB 900 will be changed from 6 units to **5 units** – with tuition fee assessment following from that. But for both courses, the **Academic Progress Units** and **Financial Aid Progress Units** shall be **6**, ensuring that students retain their *full-time status* while enrolled in either of these courses.

~~The Calendar Entry Change reflects the fact that the resulting minimum Units required for program completion will change from 19 to 17, and makes the stated Unit load for PUB 899 and PUB 900 clear.~~

It is important to note that these changes are a re-articulation—given current University systems—of Master of Publishing Program policies and practices that have been in place for decades. These changes will have no effect on existing students.

Warmly,

A handwritten signature in black ink, appearing to read "John Maxwell".

RE Archaeology Graduate Program Modifications

DATE January 25, 2023

Please find enclosed program modifications for consideration by the Faculty Graduate Curriculum Committee. The prospective term of effect would be Fall 2023.

Program Modifications

Archaeology Graduate Course Changes

- Course changes for seminar courses, ARCH 872 and ARCH 873: Updated the course names so they better reflect what the course is and updated the descriptions so the two required seminar courses match.
- Course change for ARCH 892: Updated the name and course description to better reflect what the course is, and so it matches the 3-credit directed readings course (ARCH 893).

~~Archaeology Graduate Program: PhD~~

- ~~• Program change for PhD in Archaeology. Updated wording to clarify course requirements, including Seminar.~~

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

Dana Lepofsky
Graduate Chair
Department of Archaeology

Course Subject/Number	Course Subject/Number
Units	Units*
Course Title Population and Community Ecology	Course Title (max 100 characters) Applied Ecology
Course Short Title Pop/Community Ecolog	Course Short Title (max 30 characters) Applied Ecology
Description A review of population, community, and ecosystem ecology; implications of these areas for methods of resource management and environmental assessment.	Description Explores the foundations of applied population, community, and ecosystem ecology within the context of contemporary management and conservation strategies. Topics are explored by way of interactive lectures, field trips, and group activities exploring imperiled species recovery, protected area design, and ecosystem-based management.
Prerequisite	Prerequisite
Other Equivalent Courses: MRM611.	Other

* Program requirements may need to be revised when course units are changed. Please review the calendar and submit any relevant program revisions resulting from this course change.

REMINDER: All course changes must be identified on a cover memo and confirmed as approved when submitted to FGSC and SGSC.

Course Subject/Number	Course Subject/Number
Units	Units*
Course Title Principles of Research Methods	Course Title (max 100 characters) Approaches to Sustainability Research and Practice
Course Short Title Research Methods	Course Short Title (max 30 characters) Sustainability Res and Practice
Description Students will develop skills and insight into the design, implementation and analysis of interdisciplinary research in natural resource and environmental management. This will help prepare students to carry out their own research projects.	Description Sustainability research and practice are by nature interdisciplinary. Both demand that results are mobilized to diverse audiences outside the academy. Through a combination of workshops, peer-to-peer learning, self-designed assignments, and interactive lectures, students will expand their professional toolbox with cutting-edge research, communication, and leadership skills to help them advance their sustainability research and practice goals.
Prerequisite	Prerequisite
Other Students who entered REM during or prior to the Fall 1994 term and who have received credit for any one of MRM 601, 611 or 621 may not take REM 801 for credit. Equivalent Courses: MRM801.	Other

* Program requirements may need to be revised when course units are changed. Please review the calendar and submit any relevant program revisions resulting from this course change.

REMINDER: All course changes must be identified on a cover memo and confirmed as approved when submitted to FGSC and SGSC.
